### Advance United States Summary

(This is the last report in the series of preliminary area reports on selected services published as part of the 1958 Census of Business. However, the statistics in this report for the United States are final 1958 Census figures published in advance of the final U.S. Summary Report. The data in this report along with other data will be reprinted in the final U.S. Summary for Selected Services.)

Receipts of selected service establishments in the United States during the year 1958 totaled \$32,376,009,000, an increase of \$8,867,990,000 or 37.7 percent since 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. This total includes the establishments in the area now known as the conterminous United States, i.e., the 48 States other than Alaska and Hawaii, plus the District of Columbia.

These selected service establishments had a total of 2,889,183 employees during the workweek ended nearest November 15, 1958 an increase of 527,362 compared with the same week in 1954. The annual payroll of these selected service establishments amounted to \$9,006,240,000, compared with \$6,533,715,000 in 1954, an increase of 37.8 percent.

For explanation of procedures and definitions, see pages 7-14.

## PREFACE

### AUTHORITY AND SCOPE

The 1958 Census of Business along with the 1958 Censuses of Manufactures and Mineral Industries was required by law under 13 U.S.C., sections 131 and 224. These Censuses covered businesses operated in the continental United States, Alaska, Hawaii, Guam, and the Virgin Islands. A separate Census of Business and Manufactures for 1958 was also conducted in Puerto Rico jointly with the Commonwealth Government.

The 1958 Census of Business covered Selected Services, Retail Trade, Wholesale Trade, and Public Warehousing. This report provides findings for that portion of the 1958 Census of Business which relates to the Selected Services. The figures in this report supersede those issued previously in Preliminary Reports, Series BC58(P)-SA.

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

1. The physical area of a number of urban places in the 1958 Census is not the same as it was in 1954 because of annexations and other boundary changes which have occurred since the 1954 Census. This factor should be taken into consideration in evaluating changes in census findings from 1954, as in each census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

2. Revisions made in the 1957 edition of the *SIC Manual* have necessitated the following changes in establishment classifications used in the 1954 Census:

- (a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Childrens' and Profes-

sionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

- (b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<i>Title</i>	<i>SIC Industry No.</i>
Dressmaking shops .....	5671 part
Contract mail carriers .....	4212 part
Maintenance of carrier owned auto passenger transportation.....	4172 part
Aircraft repair.....	4582 part
Machine shop repair.....	3591 part
Shopping news services.....	2711 part

3. Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

# PROCEDURES AND DEFINITIONS

## KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in Selected Services in accordance with the principles of the 1957 edition of the *Standard Industrial Classification (SIC) Manual*, issued by the Bureau of the Budget, Executive Office of the President, which defines the Service Division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Service Division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a non-profit basis are included. However, establishments in this group which are operated to provide recreation facilities for their own members and which are exempt from payment of Federal income tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Service Division of the SIC are *not* included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Data for these units will be included in later reports. (See Kind-of-Business Classifications for definitions of the kind-of-business categories for which data are shown in this report.)

## TYPES OF AREAS COVERED

This series of reports presents data by kind of business for (1) the State as a whole; (2) each Standard Metropolitan Statistical Area; (3) each county; and (4) each "city" of 2,500 inhabitants or more. The term "city" for purposes of this report includes places having 2,500 inhabitants or more in the 1950 Census of Population (or later special censuses) and which were incorporated as cities, boroughs, villages or towns (except towns in New England, New York, and Wisconsin which are not considered "incorporated places" for Census Bureau purposes). In addition, data are shown for the following areas not classified as "incorporated places:"

1. Towns in the New England States which had an urban population, by Census of Population rules, of 2,500 inhabitants or more or which had a total population of 10,000 or more.
2. Townships in New Jersey and Pennsylvania which had 10,000 inhabitants or more.

## METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

**Enumeration of "Employers."**—Information for establishments in this part of the Selected Services was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Service Division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification (for those cases for which BOASI classification had not yet been established, a general purpose form was used,) but its Census classification was determined by replies to questions on the Census report form.

**Enumeration of "Nonemployers."**—This group was defined to include service businesses other than those represented in the active FICA records of the Internal Revenue Service. Information for this group of establishments was derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "non-employer" segment of the Selected Services, although made up of a large number of establishments, accounted for about 10 percent of the total receipts of the Selected Services.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

## EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report was tabulated in accordance with the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, in cases where distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the *SIC Manual* for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Census.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the Selected Services. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the Selected Services. They do, however, include receipts other than from service activities (e.g., sales of merchandise at wholesale or retail) by establishments primarily engaged in the Selected Services. Although the count of establishments as tabulated in this report represents the number in business at the end of the year, the receipts figures include receipts of all establishments in business at any time during the year.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind (such as free meals, lodgings, etc.) paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Amounts received by employees as tips, etc., are not included in payroll. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll—workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees—workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—Includes owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

## KIND-OF-BUSINESS CLASSIFICATIONS

The Service Division is defined in the 1957 edition of the *SIC Manual*, to include establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments included in the scope of the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC. However, because in some instances a more detailed classification is required for Census purposes, than is available in the *SIC Manual*, additional kinds of business have been identified within the SIC categories.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax report. Because of the nature of the information available on the tax form, the kind-of-business classifications based on that form represent "self-designation." On the Census forms also, considerable use was made of "self-designation." However, for kinds of business which posed classification problems, special questions were included to determine the Census classification. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about 10 percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The material which follows describes the kinds of business for which separate information is provided in this report.

### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70, Except 702 and 704)

This group consists of establishments engaged in providing lodging or lodging and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) tourist homes. Apartment or residential hotels which provide accommodations for transients have been included in the Census.

**Hotels (SIC 701 except 7013).**—Establishments known as hotels, engaged in providing lodging, or lodging and meals, to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

**Year-round hotels (SIC 7011).**—Hotels which normally are in operation at least 9 months of the year.

**Seasonal hotels (SIC 7012).**—Hotels which normally are in operation less than 9 months of the year.

**Motels and tourist courts (SIC 7013).**—Establishments known as motels, tourist courts, tourist camps, or motor courts primarily engaged in providing accommodations in furnished cabins or similar structures. Excluded from the Census are tourist homes (private residences furnishing lodging to motorists).

**Trailer parks (SIC 7031).**—This classification consists of establishments known as trailer parks, primarily engaged in renting trailer space and providing utilities such as water and electricity.

**Sporting and recreational camps (SIC 7032).**—Commercially operated sporting or recreational camps providing lodging or lodging and meals. These include boys' and girls' camps, fishing and hunting camps, and dude ranches. Camps primarily receiving their financial support from subsidies, donations, contributions, etc., are not included. Also excluded from the Census are establishments operated by membership organizations and not open to the general public.

## Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

**Power laundries, family and commercial (SIC 7211).**—Establishments primarily engaged in operating mechanical laundries with steam or other power. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Cleaning, pressing shops." Included as "power laundries" are establishments that use family type washers and obtain more than half of their receipts from attended service work. Excluded are establishments which have power laundry equipment but which are primarily engaged in a specialty such as industrial laundering, linen rental, or diaper service.

**Self-service laundries (SIC 7215).**—Establishments known as "laundromats" or "launderettes" primarily engaged in furnishing the use of laundry equipment on their own premises to the public for a fee. Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Other miscellaneous business services." Establishments whose receipts from attended service work was greater than 50 percent of total receipts were included in "Power laundries, family and commercial."

**Industrial launderers (SIC 7213 part).**—Establishments primarily engaged in supplying laundered work clothes, wiping towels, and other selected items to factories, garages, newspapers, and similar users. Such establishments may or may not operate their own power laundry facilities.

**Linen supply (SIC 7213 part).**—Establishments primarily engaged in supplying to commercial and service establishments, or households users such laundered linens as uniforms, aprons, table covers, and towels. Establishments included in this classification may or may not operate their own power laundry facilities.

**Diaper service (SIC 7214).**—Establishments primarily engaged in supplying diapers and other linens for babies to homes. Such establishments may or may not operate their own power laundry facilities.

**Laundries, except power and self-service (SIC 7212).**—Establishments such as "French," "Chinese," and other laundries designating themselves as hand laundries, primarily engaged in furnishing laundry finishing services. Many of these establishments use some power equipment, but not of the industrial type.

**Cleaning, dyeing plants, except rug cleaning (SIC 7216).**—Plants primarily engaged in dry cleaning and dyeing apparel and household fabrics. Establishments primarily engaged in cleaning and repairing rugs are included under "Rug cleaning, repairing plants," and establishments which clean rugs on location are included under "Other miscellaneous personal services." Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Independently owned agencies for cleaning plants are included in the classification "Cleaning, pressing shops." Establishments known as "tailor shops" or "cleaners" are included in this classification only if they do their own cleaning.

**Beauty shops, including combination beauty and barber shops (SIC 7231).**—Establishments primarily engaged in providing beauty services, or both beauty and barber services. "Beauty departments" of establishments primarily engaged in another activity are not included in this classification unless independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

**Barber shops (SIC 7241).**—Establishments primarily engaged in providing barber services. "Barber departments" of establishments primarily engaged in another activity are not included in this classification unless independently owned and operated as leased departments or concessions. Barber colleges are also included.

**Photographic studios, including commercial photography (SIC 7221).**—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

**Shoe repair shops (SIC 7251 part).**—Establishments primarily engaged in repairing footwear. Shoe repair departments conducted in connection with other service establishments (such as valet shops, laundries, and cleaning and dyeing plants), or with retail establishments (such as shoe stores and department stores) are not included in this classification, unless independently operated as leased departments or concessions.

**Shoeshine parlors (SIC 7251 part).**—Establishments primarily engaged in shining shoes. Shoeshine departments of shoe repair shops, valet shops, and other service or retail establishments are not included in this classification, unless independently operated as leased departments or concessions.

**Hat cleaning shops (SIC 7251 part).**—Establishments primarily engaged in cleaning and blocking hats. Hat cleaning departments of shoeshine parlors, valet shops, and other service or retail establishments are not included in this classification, unless independently operated as leased departments or concessions.

**Funeral services, crematories (SIC 7261).**—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

**Cleaning, pressing shops (SIC 7271 part).**—Independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals. Valet shops and establishments generally known as "tailor shops," primarily engaged in garment pressing, are included in this classification, but custom tailors are classified in Retail Trade. Establishments known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants and independently operated collecting and distributing agencies serving cleaning and dyeing plants or power laundries are included in this classification. Data for plant-owned shops engaged in the pick-up and delivery of cleaning or laundry work have been merged with data for the plant they service and are not included here.

**Garment repair, alteration (SIC 7271 part).**—Shops primarily engaged in repairing and altering clothing (except fur) for individuals. "Dressmakers," included in this category

in the 1954 Census, are now included in Retail Trade. Shops primarily engaged in reweaving for individuals are included, but establishments primarily engaged in doing hemstitching, buttonholing, pleating, stitching and tucking on a custom basis are classified in "Other miscellaneous personal services."

**Fur repair, storage (SIC 7272).**—Shops primarily engaged in fur repair and fur storage for individuals. Fur shops primarily engaged in the sale of merchandise from stock, or in making fur apparel to custom order are classified in Retail Trade. Establishments primarily engaged in fur cleaning are classified in "Other miscellaneous personal services."

**Turkish baths, massage, reducing salons (SIC 7299 part).**—Establishments primarily engaged in furnishing steam baths, massage services, or figure building services. Turkish baths and massage parlors operated as part of other businesses such as hotels and sanitariums are not included unless independently owned and operated.

**Other miscellaneous personal services (SIC 7299 part).**—Establishments primarily engaged in providing personal services, not elsewhere classified, such as costume, dress suit rental; rug, furniture cleaning on location; coin-operated service machine establishments; check room concessions; etc.

### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises on a fee or contract basis. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" establishments (now part of SIC 2711) included in this group in the 1954 Census, are now excluded from the scope of the SIC Service Division and from the Selected Services Census.

**Advertising agencies (SIC 7311).**—Establishments primarily engaged in contracting for space in magazines, newspapers, periodicals; for radio or television time; or other advertising media on a commission or fee basis. Receipts include commissions, media costs, service fees, and production charges even when such fees are paid directly to the media involved. Media costs and commissions are included. Establishments that are primarily engaged in performing advertising services in which the media used is contracted for by the client are not included in this classification but are classified as "Miscellaneous advertising." Establishments which write advertising copy or do commercial art work but do not place advertising with media are not included in the Census of Business.

**Outdoor advertising services (SIC 7312).**—Establishments primarily engaged in the preparation and presentation of poster displays and painted and electric spectacular displays (principally outdoors) on panels, bulletins, and frames. Such establishments may, as a part of their services, construct, repair, and maintain display boards and may post advertisements. Shops which make neon signs to order are included in the Census of Manufactures.

**Miscellaneous advertising (SIC 7319).**—Establishments primarily engaged in furnishing advertising services not elsewhere classified, such as advertising research service, handbill distribution, the distribution of samples, and advertising in busses, trolleys, etc. "Shopping news services" included in this classification in the 1954 Census are now included in the Census of Manufactures. Establishments which are primarily engaged in writing advertising copy or in commercial art work but do not place advertising with media are not included in the Census of Business.

**Consumer, mercantile credit; adjustment, collection agencies (SIC 7321).**—Establishments primarily engaged in mercantile and consumer credit reporting, and privately operated collection or adjustment agencies. Credit reporting bureaus which are primarily engaged in publishing are not in the scope

of the Census of Business, but are included in the Census of Manufactures. Insurance adjustment agencies are not included in the Census of Business.

**Duplicating, addressing, mailing, mailing list, stenographic services (SIC 7331).**—Establishments primarily engaged in mimeographing, multigraphing, rotoprinting, multilithing, addressographing, and mailing services, or in compiling and selling mailing lists, also establishments primarily engaged in furnishing court reporting or public stenographic services. Establishments which provide mailing services for copy which they prepare themselves are included under "Miscellaneous advertising."

**Blueprinting, photocopying services (SIC 7332).**—Establishments primarily engaged in reproducing drawings, plans, maps, or other copy, by blueprinting or photocopying.

**Window cleaning (SIC 7341).**—Establishments primarily engaged in cleaning windows in business structures or dwellings.

**Disinfecting, exterminating services (SIC 7342).**—Establishments primarily engaged in disinfecting buildings and in exterminating insects, rodents, etc.

**Miscellaneous services to dwellings, other buildings (SIC 7349).**—Establishments primarily engaged in furnishing specialized services, not elsewhere classified, such as janitorial service, floor waxing, and office cleaning, to dwellings and other buildings. General repair contractors primarily engaged in building and maintenance work are not included in the Census of Business. The cleaning of building exteriors by sand or steam blasting is also outside the scope of the Census of Business.

**News syndicates (SIC 7351).**—Establishments primarily engaged in furnishing news, pictures, features, etc., and supplying news reporting services to newspapers and periodicals. Nonprofit syndicates operated on a membership basis, and commercial (nonmembership) news syndicates are both included in this classification.

**Private employment agencies (SIC 7361).**—Establishments (nongovernmental) primarily engaged in providing placement and employment service including modeling agencies and nurses' registries. Not included here are theatrical employment agencies which are classified under "Theatrical presentations and services," and motion picture casting bureaus which are classified as "Services allied to motion picture production."

**Research, development, testing laboratories (SIC 7391).**—Laboratories primarily engaged in research, development and testing on a commercial basis. Included are privately operated establishments engaged in research for the Federal Government on a fee or cost-plus basis. Laboratories of companies primarily engaged in research on products related to the manufacturing activities of the company are not included in the Census of Business. Such establishments are included in the Census of Manufactures as auxiliary to manufacturing. Nonprofit research agencies and offices of engineers and architects are outside the scope of the Census of Business.

**Business, management consulting services (SIC 7392).**—Establishments primarily engaged in furnishing business and management consulting services, such as business analyzing, business research, efficiency experts, fashion designing and consulting, industrial management, market research, personnel management, public relations counselors, sales engineers, statistical services, tax consultants, and traffic consultants.

**Detective agencies, protective services (SIC 7399 part).**—Establishments primarily engaged in providing the services of detectives for investigating purposes, either for individuals or businesses. Included are establishments primarily engaged in patrolling, watching, or night protective services.

**Interior decorating (SIC 7399 part).**—Establishments primarily engaged in advising clients on the selection of furniture, draperies, rugs and other interior decoration, on a fee or commission basis. Establishments providing an interior decorating service, but primarily engaged in the sale of merchandise are included in Retail Trade. Painting and papering contractors who frequently term themselves "interior decorators" are not included in the Census of Business.

**Sign painting shops (SIC 7399 part).**—Establishments primarily engaged in making signs to individual order or in office door and window lettering. Establishments primarily engaged in making signs other than on a custom basis, and neon sign manufacturers, are included in the Census of Manufactures.

**Equipment rental (SIC 7399 part).**—Establishments primarily engaged in rental of equipment and machinery to individuals, commercial establishments, and industry. Establishments which rent or lease automobiles and trucks (without drivers) are included in "Automobile, truck rentals without drivers, and lease services." Establishments which rent construction machinery with drivers, or automobiles and trucks with drivers are not included in the Census of Business.

**Auctioneers' establishments (service only) (SIC 7399 part).**—Establishments primarily engaged in selling merchandise or real estate for others at auction on a fee or commission basis. Receipts for auctioneers' services include only the commissions and fees and not the value of the merchandise. Establishments primarily engaged in selling their own or consignment merchandise at auction to household consumers, are classified in Retail Trade. Auction companies selling farm products or merchandise in large lots (e.g., leaf tobacco, floor coverings, eggs and poultry, fruit, vegetables, etc.) are classified in Wholesale Trade. Community sales at which goods are sold at auction directly at the farm or house site, or in "community barns" are not included in the Census of Business.

**Photofinishing laboratories (SIC 7399 part).**—Establishments primarily serving the photographic trade and general public in the processing of still and motion picture films, photoprinting, and related services. Establishments primarily engaged in processing theatrical and nontheatrical motion picture films for the motion picture and television industries are classified in "Services allied to motion picture production."

**Telephone answering (SIC 7399 part).**—Establishments primarily engaged in transmitting telephone messages between patients and physicians, clients and lawyers, or for other professional and business firms.

**Other miscellaneous business services (SIC 7399 part).**—Establishments primarily engaged in furnishing business services not elsewhere classified, such as armored car services, packaging services, printing brokers, trading stamp services, and water softening services.

### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Establishments "Rebuilding and retreading tires for the trade" classified as manufacturers in the 1954 Census are now included in this major group. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade.

**General automobile repair (SIC 7538).**—Establishments primarily engaged in the general repair of automobiles. Establishments which have an active franchise for the retail sale of new passenger cars are included in Retail Trade, even though their principal source of receipts may be from automobile repairs.

**Top, body repair (SIC 7531).**—Establishments primarily engaged in the repair of automobile tops and bodies. Paint shops maintained by such establishments are included in this classification.

**Battery, ignition repair and service (SIC 7532).**—Establishments primarily engaged in repairing, recharging and renting storage batteries, and in repairing automobile ignition systems.

**Radiator repair (SIC 7533).**—Establishments primarily engaged in the repair and cleaning of automobile radiators.

**Tire repair (SIC 7534).**—Establishments primarily engaged in repairing, rebuilding, and retreading automotive tires. Establishments primarily engaged in rebuilding and retreading tires for the trade, which were included in the Census of Manufactures in 1954, are now included in this classification.

**Paint shops (SIC 7535).**—Establishments primarily engaged in automobile painting and refinishing. Paint shops of establishments primarily engaged in top and body repair are included in the classification "Top and body repair."

**Glass replacement, repair (SIC 7536).**—Establishments primarily engaged in the replacement of automobile glass.

**Brake repair (SIC 7539 part).**—Establishments primarily engaged in relining, repairing and adjusting automobile brakes.

**Wheel, axle, spring repair (SIC 7539 part).**—Establishments primarily engaged in the repair and alignment of automobile wheels, and the repair and installation of automobile springs and axles.

**Other auto repair shops (SIC 7539 part).**—Establishments primarily engaged in specialized automobile repairs, not elsewhere classified (such as automobile radio repair, carburetor repair, piston ring service and repair, and speedometer repair).

**Parking lots (SIC 7521).**—Establishments primarily engaged in the temporary parking of automobiles on open air lots, usually on an hourly or daily basis.

**Parking structures (SIC 7522).**—Establishments primarily engaged in operating structures for the temporary parking of automobiles. Long time or dead storage of automobiles is not within the scope of the Census of Business.

**Automobile, truck rentals without drivers, and lease services (SIC 7511).**—Establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors, without drivers. This classification also includes the rental of trailers and semitrailers, including automobile utility trailers and house trailers.

**Automobile services, except repair (SIC 7541).**—Establishments primarily engaged in furnishing automobile services, not elsewhere classified, (such as washing automobiles, lubricating service, waxing service and towing service).

### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are

not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services"; and ship and boat repair included in the Census of Manufactures. Aircraft modification centers and establishments primarily engaged in factory type overhaul of aircraft are also included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Service Division and from the Selected Services Census.

**Radio, television repair (SIC 7621 part).**—Establishments primarily engaged in the repair of radio and television sets. Included in this classification are establishments primarily engaged in the repair of aircraft radio equipment. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments. Establishments primarily engaged in the repair of automobile radios are classified as "Other auto repair shops" (SIC 7539 part).

**Refrigerator service, repair (SIC 7621 part).**—Establishments primarily engaged in servicing and repairing household and commercial electrical refrigerators. Establishments primarily engaged in servicing and repairing gas refrigerators are included in "Other miscellaneous repair shops, and related services."

**Other electrical repair shops (SIC 7621 part).**—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (washing machines, vacuum cleaners, irons, toasters, etc.) other than radio and television sets and refrigerators. Included are establishments primarily engaged in the repair of aircraft electrical equipment. Electrical contractors, and electrical shops engaged primarily in house wiring, are not included in the Census of Business. Armature rewinding and the repair of electric motors are included in the classification "Armature rewinding, electrical motor repair and rebuilding shops."

**Watch, clock, jewelry repair (SIC 7631).**—Establishments primarily engaged in the repair of watches, clocks, and jewelry. Such establishments frequently operate as leased departments in other business establishments, such as jewelry stores.

**Reupholstery, furniture repair (SIC 7641).**—Establishments primarily engaged in furniture reupholstering and repair. Included here are establishments primarily engaged in the repair of aircraft upholstery. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade, as are establishments making furniture and cabinet work on a custom basis to individual order.

**Armature rewinding, electric motor repair and rebuilding shops (SIC 7694).**—Establishments primarily engaged in rewinding armatures, repairing electric motors, and repairing and rebuilding transformer and control equipment for others. Other activities may include the sale of new and rebuilt motors and electric equipment. Establishments primarily engaged in the sale of electric motors and other electrical equipment for industrial use are included in Wholesale Trade.

**Locksmith, gunsmith shops (SIC 7695).**—Establishments primarily engaged in repairing locks or guns, and in making lock parts or gun parts to individual order.

**Musical instrument repair (SIC 7696).**—Establishments primarily engaged in the repair of musical instruments and in the tuning and adjustment of pianos and organs.

**Farm machinery equipment repair (SIC 7699 part).**—Establishments primarily engaged in the repair of farm machinery and equipment.

**Lawnmower, saw, knife, tool sharpening repair (SIC 7699 part).**—Establishments primarily engaged in sharpening and repairing lawnmowers, saws, knives, and tools.

**Welding repair (SIC 7699 part).**—Establishments primarily engaged in repair work by welding. Welding in connection with the repair of an automobile is classified in "Other automobile repair shops."

**Typewriter repair (SIC 7699 part).**—Establishments primarily engaged in the servicing and repair of typewriters.

**Other miscellaneous repair shops and related services (SIC 7692, 7693, 7699 part).**—Establishments primarily engaged in specialized repair services, not elsewhere classified. The following are a few of the repair services classified in this industry: blacksmith, bicycle repair, leather goods repair, mattress renovating, sewer and septic tank cleaning, sewing machine repair, air conditioning equipment repair, aircraft instrument repair, boiler repair, business machine repair, camera repair, diesel engine repair, neon sign repair, oil field equipment repair, truck body rebuilding and repair, and general repair. Machine shops engaged 90 percent or more in repair, included in this classification in the 1954 Census, are now included in the Census of Manufactures; and airplane repair, also included here in 1954 are now outside the scope of the Census of Business.

## Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

**Motion picture production, distribution, services (SIC 781, 782).**—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

**Motion picture theaters, except drive-in (SIC 7831 part).**—Commercially operated regular theaters primarily engaged in the exhibition of motion pictures. Establishments engaged in the commercial exhibition of motion pictures on an itinerant basis with portable projection and sound equipment are included here.

**Drive-in motion picture theaters (SIC 7831 part).**—Commercially operated theaters commonly known as "open-air" or "drive-in," primarily engaged in the outdoor exhibition of motion pictures.

## Amusement and Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the 1954 Selected Services Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from

payment of Federal income tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

**Dance halls, studios, schools, including children's (SIC 7911).**—Includes public dance halls or ballrooms catering to the general public. Also included are dance schools engaged in teaching dancing to adults and children, and also dance schools for professionals. Children's and professionals' dance schools were excluded from the 1954 Census. The renting of halls for private dances or for occasional dances sponsored by fraternal or other organizations, is classified as real estate and is excluded from the 1958 Census.

**Dance bands, orchestras, except symphony (SIC 7921 part).**—Dance bands and orchestras presenting popular music on a contract or fee basis for private dances, restaurants, night clubs, radio and television programs, etc. Symphony orchestras, opera companies, and classical music organizations, are included in "classical music groups."

**Entertainers, except classical (for restaurants, night clubs, radio, television, etc.) (SIC 7921 part).**—Entertainment groups (other than dance bands, orchestras, or similar organizations) who operate in restaurants, night clubs, or radio and television, etc. Individual entertainers have been excluded from the Census.

**Classical music groups (SIC 7921 part).**—Included are symphony orchestras, opera companies and ballet companies, concert organizations, and other classical music organizations such as string quartets. Companies organized on a non-profit basis are included in this classification.

**Theatrical presentations, services (SIC 7921 part).**—Included are companies engaged in presenting "live" productions, such as road companies, stock companies, burlesque houses, ice shows, and producers of night club, radio and live television shows. This industry also includes services connected with theatrical production, such as theatrical, radio and television casting agencies; booking agencies for plays, artists and concerts; scenery, lighting and other theatrical equipment service; and ticket agencies for theater and sports events. Rodeos, marionette and puppet shows, and thrill shows are classified as "Other commercial amusements."

**Billiard, pool parlors (SIC 7931 part).**—Establishments engaged in the operation of billiard and pool parlors. Establishments reporting as billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to 75 percent or more of total receipts are classified in Retail Trade.

**Bowling establishments (SIC 7931 part).**—Establishments engaged in the operation of bowling alleys. Establishments reporting as bowling alleys, but having merchandise sales (food, beverages, etc.) equal to 75 percent or more of total receipts are classified in Retail Trade.

**Baseball, football clubs, promoters, etc. (SIC 7941).**—Includes operators or promoters of professional or semi-professional baseball, football, hockey and basketball clubs, and promoters of boxing, wrestling and other athletic events. Receipts of such establishments do not include revenue from radio or television broadcasts, from sale of players, from concession operators or from noncustomer revenue. Establishments primarily engaged in renting of stadiums and athletic fields to sports promoters and clubs are classified in real estate and such establishments are not included in the Census of Business.

**Race track operations, including racing stables (SIC 7948).**—Establishments primarily engaged in the promotion

of horse racing, dog racing, and automobile and motorcycle racing. Also included are establishments engaged in the operation of horse racing stables, and establishments operated by owners of greyhounds racing for purses.

**Public golf courses (SIC 7942).**—Establishments privately owned and primarily engaged in the operation of golf courses open to the public, on a fee basis. Municipally owned and operated courses are not included in the Census. Membership golf and country clubs are included as a separate classification. Miniature golf courses and golf driving ranges are included in "Other commercial sports."

**Golf clubs, country clubs (SIC 7947).**—Establishments primarily engaged in the operation of golf or country clubs restricted to club members or their invited guests. Clubs exempt from payment of Federal income tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members were included in the 1954 Census, but are excluded from the 1958 Census.

**Swimming pools (SIC 7944).**—Establishments primarily engaged in the operation of swimming pools open to the general public for a fee. Municipally operated swimming pools are excluded from the Census. Membership operated swimming pools exempt from payment of Federal income tax under the provisions of Sec. 501 of the Internal Revenue Code are excluded from the Census of Business.

**Skating rinks (SIC 7945).**—Establishments primarily engaged in operating rinks for roller or ice skating open to the general public for a fee.

**Boat, canoe rentals (SIC 7949 part).**—Commercial establishments primarily engaged in renting small boats and canoes to the general public. Establishments which rent craft with operators or furnish power boat rides are classified in "Other commercial amusements."

**Other commercial sports (SIC 7943, 7946, 7949 part).**—Other commercial participating sports facilities such as commercially operated bathing beaches; riding academies; badminton, croquet and handball courts; miniature golf, and golf driving ranges.

**Amusement parks, devices (SIC 7949 part).**—Establishments primarily engaged in the operation of amusement parks, amusement device concessions, shooting galleries, picnic grounds, kiddielands, and games of skill and chance. Municipally owned amusement parks are not included. Amusement devices located in amusement parks or operated in connection with fairs, circuses, etc., are included in this industry as separate establishments only if they are operated on a concession basis.

**Carnivals, circuses (SIC 7949 part).**—Establishments operating a group of amusement, service and/or retail units and general known as carnivals which do not have any fixed exhibition site, or companies engaged in the operation of circuses having acrobatic and animal shows, and individual circus acts. Side shows are also included in this classification.

**Fairs (SIC 7949 part).**—Establishments primarily engaged in arranging and operating the exhibitions and related activities usually associated with county or state fairs. Carnivals and side shows which may be a part of the fair, but which are independently owned and operated are classified as "Carnivals, circuses." Other amusement device concessions independently owned and operated are classified as "Amusement parks, devices."

**Tourist attractions (SIC 7949 part).**—Privately owned natural or man-made attractions primarily appealing to the tourist trade. Roadside animal farms and botanical exhibits are excluded from the Census.

Coin-operated amusement devices (SIC 7949 part).—Establishments primarily engaged in operating coin-operated amusement devices either in their own or in other places of business. Such amusement machines include juke boxes, pinball machines, mechanical games, slot machines (where legally authorized) and similar types of amusement equipment. Penny arcades and amusement parlors are also included in this industry.

Other commercial amusements (SIC 7949 part).—Establishments primarily engaged in the operation of commercial amusements or recreational services, not elsewhere classified, such as golf professionals; swimming or ski instructors; ice skating schools; bicycle rentals; domino parlors; boat rental (with operator); power boat rides; pony tracks, wired music, etc.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census are published in the form of separate report series for each of these trade segments and a separate report for public warehouses. These report series will supersede the preliminary reports.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade will consist of two parts--(1) Area Reports, and (2) Subject Reports. For retail trade and hotels and motion picture theaters, a third series of reports relating to the Central Business Districts of large metropolitan centers will also be issued.

Subsequent to the issuance of final reports, findings of the 1958 Census will be consolidated and issued as Census volumes. Announcements concerning the report series and the volumes may be obtained by writing to the Bureau of the Census, Washington 25, D. C.

The above report series do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the report series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing, by kind of business, data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and for each city of 2,500 or more inhabitants. The reports for the New England States will also include data for those towns which in the latest Census had an urban concentration of 2,500 or more inhabitants as well as all those with a total popula-

tion of 10,000 or more. The Pennsylvania and New Jersey reports provide data for townships and towns having a population of 10,000 or more at the latest Census. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports provide data for such subjects as receipts-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits as well as for a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and for standard metropolitan statistical areas and States, with cross-classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specific trade report are not limited to those in a specific industry division, such as selected services, but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters.

A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Includes general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics are published for major business centers outside the central business district.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

## Alabama

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Alabama during the year 1958 totaled \$241,885,000, an increase of \$60,911,000 or 33.7 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 32.5 percent compared with an increase of 35.2 percent in the remainder of the State. The largest cities in the State, Birmingham, Mobile, and Montgomery, showed increases of 28.9 percent, 35.4 percent, and 30.2 percent, respectively.

Selected service trade establishments in the State had a total of 31,105 paid employees during the workweek ended nearest November 15, 1958, an increase of 11.4 percent compared with the same week in 1954. In addition, 11,558 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$66,906,000, compared with \$52,627,000 in 1954, an increase of 27.1 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 10-13.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).--Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).--Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).--Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).--Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).--Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).--Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).--Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).--Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).--Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).--Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM**  
**PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES

### Preliminary Area Report

DEC 21 3 53 PM '59  
LIBRARY

December 1959

BC58(P)-SA3

## Arizona

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Arizona during the year 1958 totaled \$201,150,000, an increase of \$80,644,000 or 66.9 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 76.2 percent compared with an increase of 39.7 percent in the remainder of the State. The largest cities in the State, Phoenix, Tucson, and Mesa, showed increases of 85.3 percent, 99.0 percent, and 40.8 percent, respectively.

Selected service trade establishments in the State had a total of 20,414 paid employees during the workweek ended nearest November 15, 1958, an increase of 51.1 percent compared with the same week in 1954. In addition, 7,938 active proprietors and partners were engaged in the operation of

the selected service trade establishments. The annual payroll of these establishments amounted to \$53,277,000, compared with \$31,124,000 in 1954, an increase of 71.2 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 6-9.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories—those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

BUREAU OF THE CENSUS  
Dec 11 1958 PM '59

December 1959

BC58(P)-SA4

### Arkansas

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Arkansas during the year 1958 totaled \$146,381,000, an increase of \$33,277,000 or 29.4 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 32.9 percent compared with an increase of 27.7 percent in the remainder of the State. The largest cities in the State, Little Rock, Fort Smith, and North Little Rock, showed increases of 34.6 percent, 13.4 percent, and 71.2 percent, respectively.

Selected service trade establishments in the State had a total of 18,090 paid employees during the workweek ended nearest November 15, 1958, an increase of 13.2 per-

cent compared with the same week in 1954. In addition, 9,637 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$35,378,000, compared with \$28,877,000 in 1954, an increase of 22.5 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 9-12.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

#### EXPLANATION OF TERMS

Establishments.--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

Receipts.--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

Payroll, entire year.--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll-workweek ended nearest November 15.--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees-workweek ended nearest November 15.--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

"Full workweek" employees.--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Proprietors of unincorporated businesses.--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

#### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automobile passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.)—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.)—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

February 1960

BC58(P)-SA5

### California

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in California during the year 1958 totaled \$3,821,160,000, an increase of \$1,319,085,000 or 52.7 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 53.7 percent compared with an increase of 41.6 percent in the remainder of the State.

Selected service trade establishments in the State had a total of 326,959 paid employees during the workweek ended nearest November 15, 1958, an increase of 35.6 percent compared with the same week in 1954. In addition, 105,503 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted

to \$1,300,792,000, compared with \$887,179,000 in 1954, an increase of 46.7 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 12-15.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

## Colorado

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Colorado during the year 1958 totaled \$311,001,000, an increase of \$84,733,000 or 37.4 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 40.8 percent compared with an increase of 32.1 percent in the remainder of the State. The largest cities in the State, Denver, Pueblo, and Colorado Springs, showed increases of 32.6 percent, 14.5 percent, and 23.7 percent, respectively.

Selected service trade establishments in the State had a total of 30,334 paid employees during the workweek ended nearest November 15, 1958, an increase of 30.8 percent compared with the same week in 1954. In addition, 11,870 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$86,794,000, compared with \$60,472,000 in 1954, an increase of 43.5 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 8-11.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

Establishments.--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

Receipts.--Receipts include the total or all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

Payroll, entire year.--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll-workweek ended nearest November 15.--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees-workweek ended nearest November 15.--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

"Full workweek" employees.--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Proprietors of unincorporated businesses.--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

Area	Retail trade	Wholesale trade	Selected services	Area	Retail trade	Wholesale trade	Selected services

## SELECTED SERVICES CENSUS Preliminary Area Report

FEB 12 8 53 AM '60  
LIBRARY

February 1960

BC58(P)-SA7

### Connecticut

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Connecticut during the year 1958 totaled \$354,783,000, an increase of \$96,160,000 or 37.2 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The largest cities in the State, Hartford, New Haven, and Bridgeport, showed increases of 38.2 percent, 16.1 percent, and 33.4 percent, respectively.

Selected service trade establishments in the State had a total of 34,890 paid employees during the workweek ended nearest November 15, 1958, an increase of 20.0 percent compared with the same week in 1954. In addition, 12,510 active proprietors and partners were engaged in the operation of the selected service trade establishments.

The annual payroll of these establishments amounted to \$108,747,000, compared with \$78,321,000 in 1954, an increase of 38.8 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 7-10.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

- (1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

January 1960

BC58(P)-SA8

### Delaware

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Delaware during the year 1958 totaled \$70,146,000, an increase of \$22,952,000 or 48.6 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 48.0 percent compared with an increase of 51.5 percent in the remainder of the State. The largest city in the State, Wilmington, showed an increase of 46.1 percent.

Selected service trade establishments in the State had a total of 6,247 paid employees during the workweek ended nearest November 15, 1958, an increase of 27.9 percent compared with the same week in 1954. In addition,

2,139 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$19,766,000, compared with \$12,832,000 in 1954, an increase of 54.0 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 5-8.

Table A.—SELECTED SERVICES: 1958 AND 1954—THE STATE

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories—those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

#### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

#### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.)—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.)—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES

### Preliminary Area Report

January 1960

BC58(P)-SA9

## District of Columbia

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in the District of Columbia during the year 1958 totaled \$287,143,000, an increase of \$49,789,000 or 21.0 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce.

Selected service trade establishments in the District of Columbia had a total of 30,692 paid employees during the workweek ended nearest November 15, 1958, an increase of 8.4 percent compared with the same week in 1954. In addition, 5,096 active proprietors and partners were engaged in the operation of the selected service trade es-

tablishments. The annual payroll of these establishments amounted to \$98,545,000, compared with \$79,426,000 in 1954, an increase of 24.1 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 5-8.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

Establishments.--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

Receipts.--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

Payroll, entire year.--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll-workweek ended nearest November 15.--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees-workweek ended nearest November 15.--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

"Full workweek" employees.--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Proprietors of unincorporated businesses.--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).--Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).--Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).--Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).--Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).--Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).--Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).--Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).--Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).--Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).--Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

## SELECTED SERVICES

### Preliminary Area Report

BUREAU OF THE CENSUS

FEB 11 2 38 PM '60

February 1960

LIBRARY  
BC98 (P) LSA10

## Florida

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Florida during the year 1958 totaled \$991,988,000, an increase of \$335,707,000 or 51.2 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 50.8 percent compared with an increase of 52.0 percent in the remainder of the State. The largest cities in the State, Miami, Jacksonville, and Tampa, showed increases of 52.7 percent, 38.3 percent, and 69.8 percent, respectively.

Selected service trade establishments in the State had a total of 101,159 paid employees during the workweek ended nearest November 15, 1958, an increase of 48.3 percent compared with the same week in 1954. In addition, 32,235 active proprietors and partners were engaged in the operation of the selected service trade establishments.

The annual payroll of these establishments amounted to \$270,721,000, compared with \$169,541,000 in 1954, an increase of 59.7 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 10-13.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

**Enumeration of "Employers."**--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

**Enumeration of "Nonemployers."**--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES

### Preliminary Area Report

BUREAU OF THE CENSUS

FEB 17 2 38 PM '60

LIBRARY

February 1960

BC58 (P)-S11

## Georgia

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Georgia during the year 1958 totaled \$425,802,000, an increase of \$107,241,000 or 33.7 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 35.3 percent compared with an increase of 30.1 percent in the remainder of the State. The largest cities in the State, Atlanta, Savannah, and Columbus, showed increases of 34.6 percent, 23.9 percent, and 27.0 percent, respectively.

Selected service trade establishments in the State had a total of 50,308 paid employees during the workweek ended nearest November 15, 1958, an increase of 17.9 percent compared with the same week in 1954. In addition, 15,839 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$118,130,000, compared with \$85,777,000 in 1954, an increase of 37.7 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 14-17.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# **PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS**

## **PUBLICATION OF FINAL CENSUS RESULTS**

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## **THE SELECTED SERVICE TRADES SERIES**

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## **CENSUS VOLUMES**

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

as it is printed.

# ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

### Preliminary Area Report

THE CENSUS

Dec 4 8 55 AM '59

LIBRARY

November 1959

BC58(P)-SA12

## Idaho

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Idaho during the year 1958 totaled \$79,268,000, an increase of \$19,060,000 or 31.7 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The largest cities in the State, Boise, Pocatello, and Idaho Falls, showed increases of 44.1 percent, 13.4 percent, and 38.1 percent, respectively.

Selected service trade establishments in the State had a total of 7,272 paid employees during the workweek ended nearest November 15, 1958, an increase of 17.8 percent compared with the same week in 1954. In addition, 4,110 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to

\$18,521,000, compared with \$14,248,000 in 1954, an increase of 30.0 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 7-10.

Table A--SELECTED SERVICES: 1958 AND 1954--THE STATE

SIC code	Kind of business	1958				1954				Percent change in receipts, 1954 to 1958

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

#### EXPLANATION OF TERMS

Establishments.--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

Receipts.--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

Payroll, entire year.--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll-workweek ended nearest November 15.--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees-workweek ended nearest November 15.--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

"Full workweek" employees.--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Proprietors of unincorporated businesses.--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

#### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and whole-sale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES Preliminary Area Report '60

February 1960

BC58(P)-SA13

### Illinois

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Illinois during the year 1958 totaled \$2,556,312,000, an increase of \$559,273,000 or 28.0 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 28.7 percent compared with an increase of 20.4 percent in the remainder of the State. The largest cities in the State, Chicago, Peoria, and Rockford showed increases of 23.0 percent, 25.9 percent, and 38.7 percent, respectively.

Selected service trade establishments in the State had a total of 190,423 paid employees during the workweek ended nearest November 15, 1958, an increase of 11.9 percent compared with the same week in 1954. In addition, 55,267 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$692,401,000, compared with \$528,576,000 in 1954, an increase of 31.0 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see page 16-19.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shipping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 73)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM**  
**PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES Preliminary Area Report

January 1960

BC58(P)-SA14

### Indiana

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Indiana during the year 1958 totaled \$537,185,000, an increase of \$143,875,000 or 36.6 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 41.7 percent compared with an increase of 27.4 percent in the remainder of the State. The largest cities in the State, Indianapolis, Gary, and Fort Wayne, showed increases of 38.3 percent, 36.5 percent, and 33.3 percent, respectively.

Selected service trade establishments in the State had a total of 54,264 paid employees during the workweek ended nearest November 15, 1958, an increase of 11.6 percent compared with the same week in 1954. In addition,

24,360 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$152,019,000, compared with \$115,975,000 in 1954, an increase of 31.1 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 13-16.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES

BUREAU OF THE CENSUS  
Preliminary Area Report 8 28 AM '60  
FEB 3 8 28 AM '60

January 1960

LIBRARY

BC58(P)-SA15

### Iowa

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Iowa during the year 1958 totaled \$288,188,000, an increase of \$56,367,000 or 24.3 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 26.3 percent compared with an increase of 22.3 percent in the remainder of the State. The largest cities in the State, Des Moines, Sioux City, and Cedar Rapids, showed increases of 21.9 percent, 27.3 percent, and 25.6 percent, respectively.

Selected service trade establishments in the State had a total of 28,841 paid employees during the workweek ended nearest November 15, 1958, an increase of 13.5 percent compared with the same week in 1954. In addition, 15,272 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$70,011,000, compared with \$53,215,000 in 1954, an increase of 31.6 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 11-14.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned	
auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

#### EXPLANATION OF TERMS

Establishments.--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

Receipts.--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

Payroll, entire year.--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll-workweek ended nearest November 15.--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees-workweek ended nearest November 15.--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

"Full workweek" employees.--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Proprietors of unincorporated businesses.--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

#### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214). Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM**  
**PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

January 1960

BC58(P) -SA16

### Kansas

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Kansas during the year 1958 totaled \$231,492,000, an increase of \$47,588,000 or 25.9 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 31.2 percent compared with an increase of 21.7 percent in the remainder of the State. The largest cities in the State, Wichita, Kansas City, and Topeka, showed increases of 23.6 percent, 42.3 percent, and 34.8 percent, respectively.

Selected service trade establishments in the State had a total of 23,918 paid employees during the workweek ended nearest November 15, 1958, an increase of 8.4 percent compared with the same week in 1954. In addition, 13,937 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$55,651,000, compared with \$44,421,000 in 1954, an increase of 25.3 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 11-14.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

#### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

#### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.)—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.)—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

# ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES

### Preliminary Area Report

BUREAU OF THE CENSUS  
FEB 11 2 38 PM '60

February 1960

LIBRARY  
BC58(P)-SA17

## Kentucky

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Kentucky during the year 1958 totaled \$280,381,000, an increase of \$68,383,000 or 32.3 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 30.7 percent compared with an increase of 34.4 percent in the remainder of the State. The largest cities in the State, Louisville, Covington, and Lexington, showed increases of 28.0 percent, 16.0 percent, and 34.5 percent, respectively.

Selected service trade establishments in the State had a total of 29,859 paid employees during the workweek ended nearest November 15, 1958, an increase of 7.7 percent compared with the same week in 1954. In addition, 13,331 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$74,442,000, compared with \$57,253,000 in 1954, an increase of 30.0 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 11-14.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

#### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

#### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services," and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and whole-sale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES

### Preliminary Area Report

January 1960

BC58(P)-SA18

## Louisiana

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Louisiana during the year 1958 totaled \$378,549,000, an increase of \$102,299,000 or 37.0 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 30.8 percent compared with an increase of 51.9 percent in the remainder of the State. The largest cities in the State, New Orleans, Shreveport, and Baton Rouge showed increases of 20.1 percent, 40.4 percent, and 69.6 percent, respectively.

Selected service trade establishments in the State had a total of 41,598 paid employees during the workweek ended nearest November 15, 1958, an increase of 25.5 percent compared with the same week in 1954. In addition, 13,462 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$105,701,000 compared with \$72,518,000 in 1954, an increase of 45.8 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 10-13.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

#### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

#### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).--Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).--Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).--Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).--Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).--Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).--Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).--Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).--Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).--Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).--Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

as it is printed.

# ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

January 1960

BC58(P)-SA19

### Maine

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Maine during the year 1958 totaled \$111,863,000, an increase of \$24,061,000 or 27.4 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The largest cities in the State, Portland, Lewiston, and Bangor, showed increases of 26.6 percent, 13.8 percent, and 26.5 percent, respectively.

Selected service trade establishments in the State had a total of 12,708 paid employees during the workweek ended nearest November 15, 1958, an increase of 30.4 percent compared with the same week in 1954. In addition, 6,032 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to

\$28,816,000, compared with \$22,405,000 in 1954, an increase of 28.6 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 6-9.

Table A.-SELECTED SERVICES: 1958 AND 1954--THE STATE

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES CENSUS Preliminary Area Report

January 1960

BC58(P)-SA20

### Maryland

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Maryland during the year 1958 totaled \$403,719,000, an increase of \$109,976,000 or 37.4 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 38.3 percent compared with an increase of 32.8 percent in the remainder of the State. The largest cities in the State, Baltimore, Cumberland, and Hagerstown, showed increases of 26.8 percent, 13.2 percent, and 18.9 percent, respectively.

Selected service trade establishments in the State had a total of 48,953 paid employees during the workweek ended nearest November 15, 1958, an increase of 36.5 percent compared with the same week in 1954. In addition, 12,707 active proprietors and partners were engaged in the operation of the selected service trade establishments.

The annual payroll of these establishments amounted to \$118,937,000, compared with \$87,801,000 in 1954, an increase of 35.5 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 6-9.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

as it is printed.

# ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

Area	Retail trade	Wholesale trade	Selected services	Area	Retail trade	Wholesale trade	Selected services

## SELECTED SERVICES BUREAU OF THE CENSUS Preliminary Area Report FEB 12 8 4 AM '60

February 1960

LIBRARY

BC58(P)-SA21

### Massachusetts

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Massachusetts during the year 1958 totaled \$886,348,000, an increase of \$248,945,000 or 39.1 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The largest cities in the State, Boston, Worcester, and Springfield, showed increases of 34.5 percent, 27.7 percent, and 17.3 percent, respectively.

Selected service trade establishments in the State had a total of 83,546 paid employees during the workweek ended nearest November 15, 1958, an increase of 18.6 percent compared with the same week in 1954. In addition,

27,480 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$254,108,000, compared with \$184,151,000 in 1954, an increase of 38.0 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 9-12.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned	
auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

BUREAU OF THE CENSUS  
FEB 3 8 30 AM '60  
LIBRARY

January 1960

BC58(P)-SA22

### Michigan

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Michigan during the year 1958 totaled \$1,340,873,000, an increase of \$325,272,000 or 32.0 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 32.3 percent compared with an increase of 30.0 percent in the remainder of the State. The largest cities in the State, Detroit, Grand Rapids, and Flint, showed increases of 34.1 percent, 28.3 percent, and 7.7 percent, respectively.

Selected service trade establishments in the State had a total of 106,557 paid employees during the workweek ended nearest November 15, 1958, an increase of 14.8 percent compared with the same week in 1954. In addition, 39,247 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$350,750,000, compared with \$267,397,000 in 1954, an increase of 31.2 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 12-15.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments, known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES

Preliminary Area Report JAN 5 2 35 PM '60

December 1959

BC58(P)-SA23

### Minnesota

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Minnesota during the year 1958 totaled \$515,778,000, an increase of \$140,668,000 or 37.5 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 41.1 percent compared with an increase of 29.0 percent in the remainder of the State. The largest cities in the State, Minneapolis, St. Paul, and Duluth, showed increases of 44.0 percent, 26.8 percent, and 12.9 percent, respectively.

Selected service trade establishments in the State had a total of 45,259 paid employees during the workweek ended nearest November 15, 1958, an increase of 21.5 percent compared with the same week in 1954. In addition, 18,576 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$132,145,000, compared with \$94,004,000 in 1954, an increase of 40.6 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 11-14.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES Preliminary Area Report

December 1958

BC58(P)-SA24

### Mississippi

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Mississippi during the year 1958 totaled \$141,701,000, an increase of \$40,045,000 or 39.4 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 70.6 percent compared with an increase of 31.0 percent in the remainder of the State. The largest cities in the State, Jackson and Meridian, showed increases of 66.6 percent and 49.4 percent.

Selected service trade establishments in the State had a total of 18,173 paid employees during the workweek ended nearest November 15, 1958, an increase of 13.2 percent compared with the same week in 1954. In addition, 7,419

active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$35,420,000, compared with \$26,895,000 in 1954, an increase of 31.7 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 9-12.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

Establishments.--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

Receipts.--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

Payroll, entire year.--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll-workweek ended nearest November 15.--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees-workweek ended nearest November 15.--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

"Full workweek" employees.--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Proprietors of unincorporated businesses.--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).--Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).--Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).--Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).--Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).--Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).--Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).--Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).--Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).--Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).--Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).--Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).--Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).--Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).--Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).--Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).--Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).--Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).--Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).--Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).--Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

BUREAU OF THE CENSUS  
FEB 9 8 29 AM '60  
LIBRARY

February 1960

BC58(P)-SA25

### Missouri

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Missouri during the year 1958 totaled \$717,968,000, an increase of \$128,110,000 or 21.7 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 19.0 percent compared with an increase of 34.4 percent in the remainder of the State. The largest cities in the State, St. Louis, Kansas City, and St. Joseph, showed increases of 12.7 percent, 17.7 percent, and 33.6 percent, respectively.

Selected service trade establishments in the State had a total of 68,900 paid employees during the workweek ended nearest November 15, 1958, an increase of 11.0 percent compared with the same week in 1954. In addition,

26,074 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$196,319,000, compared with \$157,680,000 in 1954, an increase of 24.5 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 12-15.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories—those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

**Enumeration of "Employers."**—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

**Enumeration of "Nonemployers."**—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).--Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).--Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).--Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).--Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).--Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).--Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).--Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).--Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).--Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).--Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES Preliminary Area Report

LIBRARY

December 1959

BC58(P)-SA26

### Montana

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Montana during the year 1958 totaled \$80,295,000, an increase of \$15,382,000 or 23.7 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The largest cities in the State, Great Falls, Butte, and Billings, showed increases of 25.2 percent, 4.7 percent, and 31.8 percent, respectively.

Selected service trade establishments in the State had a total of 7,839 paid employees during the workweek ended nearest November 15, 1958, an increase of 16.4 percent compared with the same week in 1954. In addition, 4,288 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to

\$19,663,000, compared with \$14,946,000 in 1954, an increase of 31.6 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 7-10.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).--Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).--Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).--Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).--Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).--Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).--Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).--Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).--Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).--Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).--Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

Area	Retail trade	Wholesale trade	Selected services	Area	Retail trade	Wholesale trade	Selected services

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

December 1959

BC58(P)-SA27

### Nebraska

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Nebraska during the year 1958 totaled \$179,739,000, an increase of 24,934,000 or 16.1 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 12.9 percent compared with an increase of 20.7 percent in the remainder of the State. The largest cities in the State, Omaha, Lincoln, and Grand Island, showed increases of 8.0 percent, 32.0 percent, and 18.4 percent, respectively.

Selected service trade establishments in the State had a total of 18,453 paid employees during the workweek ended nearest November 15, 1958, an increase of 7.2 percent compared with the same week in 1954. In addition,

8,933 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$43,791,000, compared with \$36,256,000 in 1954, an increase of 20.8 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 9-12.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).--Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).--Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).--Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).--Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).--Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).--Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).--Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).--Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).--Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).--Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

BUREAU OF THE CENSUS  
DEC 21 3 57 PM '58  
LIBRARY

December 1959

BC58(P)-SA28

### Nevada

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Nevada during the year 1958 totaled \$280,731,000, an increase of \$108,591,000 or 63.1 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The largest cities in the State, Reno, Las Vegas, and Sparks, showed increases of 55.6 percent, 65.8 percent, and 165.5 percent, respectively.

Selected service trade establishments in the State had a total of 24,700 paid employees during the workweek ended nearest November 15, 1958, an increase of 54.5 percent compared with the same week in 1954. In addition, 2,734 active proprietors and partners were engaged in the operation of

the selected service trade establishments. The annual payroll of these establishments amounted to \$101,203,000, compared with \$59,299,000 in 1954, an increase of 70.7 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 5-8.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories—those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

January 1960

BC58(P)-SA29

### New Hampshire

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in New Hampshire during the year 1958 totaled \$89,775,000, an increase of \$21,459,000 or 31.4 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 34.1 percent compared with an increase of 30.9 percent in the remainder of the State. The largest cities in the State, Manchester, Nashua, and Concord, showed increases of 31.2 percent, 12.8 percent, and 37.7 percent, respectively.

Selected service trade establishments in the State had a total of 8,659 paid employees during the workweek ended nearest November 15, 1958, an increase of 38.1 percent compared with the same week in 1954. In addition, 4,419 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$23,405,000, compared with \$17,290,000 in 1954, an increase of 35.4 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 6-9.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES

### Preliminary Area Report

February 1960

LIBRARY

BC58(P)-SA30

## New Jersey

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in New Jersey during the year 1958 totaled \$1,011,610,000, an increase of \$205,411,000 or 25.5 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 24.8 percent compared with an increase of 29.1 percent in the remainder of the State. The largest cities in the State, Newark, Jersey City, and Paterson showed increases of 25.1 percent, 22.9 percent, and 20.2 percent, respectively.

Selected service trade establishments in the State had a total of 95,574 paid employees during the workweek ended nearest November 15, 1958, an increase of 17.0 percent compared with the same week in 1954. In addition,

31,576 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$310,121,000, compared with \$252,961,000 in 1954, an increase of 22.6 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 12-15.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotel's, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).--Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).--Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).--Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).--Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).--Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).--Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).--Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).--Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).--Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).--Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).--Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).--Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).--Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.)--Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.)--Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).--Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).--Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).--Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).--Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).--Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

Area	Retail trade	Wholesale trade	Selected services	Area	Retail trade	Wholesale trade	Selected services

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

December 1959

BC58(P)-SA31

### New Mexico

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in New Mexico during the year 1958 totaled \$130,879,000 an increase of \$39,454,000 or 43.2 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 49.0 percent compared with an increase of 40.6 percent in the remainder of the State. The largest cities in the State, Albuquerque, Santa Fe, and Roswell, showed increases of 44.2 percent, 55.1 percent, and 17.5 percent, respectively.

Selected service trade establishments in the State had a total of 12,956 paid employees during the workweek ended nearest November 15, 1958, an increase of 22.2 percent compared with the same week in 1954. In addition, 5,366 active proprietors and partners were engaged in the operation of

the selected service trade establishments. The annual payroll of these establishments amounted to \$35,654,000, compared with \$25,566,000 in 1954, an increase of 39.5 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 7-10.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories—those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

#### EXPLANATION OF TERMS

Establishments.—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

Receipts.—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

Payroll, entire year.—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll-workweek ended nearest November 15.—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees-workweek ended nearest November 15.—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

"Full workweek" employees.—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Proprietors of unincorporated businesses.—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

#### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES

Preliminary Area Report 1

THE CENSUS

8 30 AM '60

February 1960

LIBRARY

BC58(P)-SA32

## New York

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in New York during the year 1958 totaled \$6,628,653,000, an increase or \$1,669,367,000 or 33.7 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 33.9 percent compared with an increase of 29.8 percent in the remainder of the State. The largest cities in the State, New York, Buffalo, and Rochester, showed increases of 33.7 percent, 21.8 percent, and 16.7 percent, respectively.

Selected service trade establishments in the State had a total of 416,252 paid employees during the workweek ended nearest November 15, 1958, an increase of 12.4 percent compared with the same week in 1954. In addition, 102,520 active proprietors and partners were engaged in

the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$1,846,851,000, compared with \$1,248,910,000 in 1954, an increase of 47.9 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 12-15.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM**  
**PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES

Preliminary Area Report 8-31-60

January 1960

BC58(P)-SA33

### North Carolina

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in North Carolina during the year 1958 totaled \$396,078,000, an increase of \$89,536,000 or 29.2 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 30.7 percent compared with an increase of 28.0 percent in the remainder of the State. The largest cities in the State, Charlotte, Winston-Salem, and Greensboro, showed increases of 31.3 percent, 17.1 percent, and 44.4 percent, respectively.

Selected service trade establishments in the State had a total of 50,276 paid employees during the workweek ended nearest November 15, 1958, an increase of 18.7 percent compared with the same week in 1954. In addition, 18,402 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$108,057,000, compared with \$83,051,000 in 1954, an increase of 30.1 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 11-14.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories—those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES

### Preliminary Area Report

December 1959

BC58(P)-SA34

## North Dakota

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in North Dakota during the year 1958 totaled \$51,709,000, an increase of \$8,452,000 or 19.5 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The largest cities in the State, Fargo, Grand Forks, and Minot, showed increases of 20.5 percent, 35.8 percent, and 37.9 percent, respectively.

Selected service trade establishments in the State had a total of 5,272 paid employees during the workweek ended nearest November 15, 1958, an increase of 8.1 percent compared with the same week in 1954. In addition, 3,189 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to

\$11,650,000, compared with \$9,203,000 in 1954, an increase of 26.6 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 7-10.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories—those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and whole-sale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES

BUREAU OF THE CENSUS  
Preliminary Area Report for 12 8 54 AM '60

February 1960

LIBRARY

BC58(P)-SA35

### Ohio

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Ohio during the year 1958 totaled \$1,457,717,000, an increase of \$313,787,000 or 27.4 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 25.9 percent compared with an increase of 35.7 percent in the remainder of the State. The largest cities in the State, Cleveland, Cincinnati, and Columbus, showed increases of 15.2 percent, 20.2 percent, and 35.2 percent, respectively.

Selected service trade establishments in the State had a total of 134,426 paid employees during the workweek ended nearest November 15, 1958, an increase of 12.1 percent compared with the same week in 1954. In addition, 49,654 active proprietors and partners were engaged in the operation of the selected service trade establishments.

The annual payroll of these establishments amounted to \$413,012,000, compared with \$326,135,000 in 1954, an increase of 26.6 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 15-18.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

#### EXPLANATION OF TERMS

Establishments.--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

Receipts.--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

Payroll, entire year.--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll-workweek ended nearest November 15.--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees-workweek ended nearest November 15.--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

"Full workweek" employees.--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Proprietors of unincorporated businesses.--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

#### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial laundries, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 73)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.)—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.)—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments—selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts—(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses—hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

### Oklahoma

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Oklahoma during the year 1958 totaled \$291,714,000, an increase of \$57,973,000 or 24.8 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 29.6 percent compared with an increase of 18.5 percent in the remainder of the State. The largest cities in the State, Oklahoma City and Tulsa, showed increases of 25.0 percent and 17.2 percent, respectively.

Selected service trade establishments in the State had a total of 29,703 paid employees during the workweek ended nearest November 15, 1958, an increase of 7.2 percent compared with the same week in 1954. In addition, 16,348 active proprietors and partners were engaged in the operation of the selected service trade establishments.

The annual payroll of these establishments amounted to \$73,315,000, compared with \$61,528,000 in 1954, an increase of 19.2 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 10-13.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g., sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# **PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS**

## **PUBLICATION OF FINAL CENSUS RESULTS**

The 1958 Census of Business consists of three major trade segments—selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts—(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## **THE SELECTED SERVICE TRADES SERIES**

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses—hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## **CENSUS VOLUMES**

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM**  
**PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES

### Preliminary Area Report

December 1959

BC58(P)-SA37

## Oregon

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Oregon during the year 1958 totaled \$265,826,000, an increase of \$48,293,000 or 22.2 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 27.5 percent compared with an increase of 15.7 percent in the remainder of the State. The largest cities in the State, Portland, Eugene, and Salem, showed increases of 24.4 percent, 22.8 percent, and 38.6 percent, respectively.

Selected service trade establishments in the State had a total of 23,342 paid employees during the workweek ended nearest November 15, 1958, an increase of 14.1 percent compared with the same week in 1954. In addition, 11,139 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$70,106,000, compared with \$56,051,000 in 1954, an increase of 25.1 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 8-11.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups.

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

Area	Retail trade	Wholesale trade	Selected services	Area	Retail trade	Wholesale trade	Selected services

## SELECTED SERVICES

BUREAU OF THE CENSUS  
Preliminary Area Report  
MAR 1 8 30 AM '60

February 1960

LIBRARY

BC58(P)-SA38

### Pennsylvania

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Pennsylvania during the year 1958 totaled \$1,614,347,000, an increase of \$338,621,000 or 26.5 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 26.0 percent compared with an increase of 30.2 percent in the remainder of the State. The largest cities in the State, Philadelphia, Pittsburgh, and Erie, showed increases of 18.9 percent, 26.5 percent, and 25.9 percent, respectively.

Selected service trade establishments in the State had a total of 151,950 paid employees during the workweek ended nearest November 15, 1958, an increase of 13.3 percent compared with the same week in 1954. In addition, 61,213 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$435,206,000, compared with \$343,219,000 in 1954, an increase of 26.8 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 16-19.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g.,

establishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

Area	Retail trade	Wholesale trade	Selected services	Area	Retail trade	Wholesale trade	Selected services
U.S. Summary				Montana			
Alabama				Nebraska			
Alaska				Nevada			
Arizona				New Hampshire			
Arkansas				New Jersey

## SELECTED SERVICES Preliminary Area Report

BUREAU OF THE CENSUS  
FEB 12 8 51 AM '60  
LIBRARY

February 1960

BC58(P)-SA39

### Rhode Island

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Rhode Island during the year 1958 totaled \$118,090,000, an increase of \$19,209,000 or 19.4 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The largest cities in the State, Providence, Pawtucket, and Cranston, showed increases of 21.4 percent, 7.9 percent, and 41.9 percent, respectively.

Selected service trade establishments in the State had a total of 12,460 paid employees during the workweek ended nearest November 15, 1958, an increase of 9.3 percent compared with the same week in 1954. In addition, 4,749 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to

\$33,678,000, compared with \$26,380,000 in 1954, an increase of 27.7 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 6-9.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided, in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

January 1960

BC58(P)-SA40

### South Carolina

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in South Carolina during the year 1958 totaled \$176,799,000, an increase of \$53,359,000 or 43.2 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 53.5 percent compared with an increase of 34.5 percent in the remainder of the State.

Selected service trade establishments in the State had a total of 22,170 paid employees during the workweek ended nearest November 15, 1958, an increase of 14.0 percent compared with the same week in 1954. In addition, 8,508 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$45,629,000, compared with \$34,596,000 in 1954, an increase of 31.9 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 9-12.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).--Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).--Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).--Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).--Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).--Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).--Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).--Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).--Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).--Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).--Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).--Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).--Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).--Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.)--Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.)--Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).--Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).--Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).--Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).--Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).--Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES

### Preliminary Area Report

December 1959

BC58(P)-SA41

## South Dakota

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in South Dakota during the year 1958 totaled \$65,925,000, an increase of \$16,776,000 or 34.1 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 26.5 percent compared with an increase of 35.8 percent in the remainder of the State. The largest cities in the State, Sioux Falls, Rapid City, and Aberdeen, showed increases of 23.3 percent, 39.6 percent, and 21.3 percent, respectively.

Selected service trade establishments in the State had a total of 6,609 paid employees during the workweek ended nearest November 15, 1958, an increase of 30.0 percent compared with the same week in 1954. In addition, 4,444 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$14,115,000, compared with \$9,801,000 in 1954, an increase of 44.0 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 8-11.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).--Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).--Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).--Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).--Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).--Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).--Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).--Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).--Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).--Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).--Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES Preliminary Area Report

BUREAU OF THE CENSUS  
FEB 9 8 28 AM '60  
LIBRARY

February 1960

BC58(P)-SA42

### Tennessee

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Tennessee during the year 1958 totaled \$390,949,000, an increase of \$104,732,000 or 36.6 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 30.3 percent compared with an increase of 50.5 percent in the remainder of the State. The largest cities in the State, Memphis, Nashville, and Chattanooga, showed increases of 35.2 percent, 42.2 percent, and 22.3 percent, respectively.

Selected service trade establishments in the State had a total of 46,884 paid employees during the workweek ended nearest November 15, 1958, an increase of 16.4 percent compared with the same week in 1954. In addition, 5,345 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$118,852,000, compared with \$86,034,000 in 1954, an increase of 38.1 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 11-14.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundrerets," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES

### Preliminary Area Report '60

February 1960

BC58(P)-SA43

## Texas

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Texas during the year 1958 totaled \$1,352,588,000, an increase of \$348,414,000 or 34.7 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 37.1 percent compared with an increase of 28.9 percent in the remainder of the State. The largest cities in the State, Houston, Dallas, and San Antonio, showed increases of 47.3 percent, 33.9 percent, and 41.2 percent, respectively.

Selected service trade establishments in the State had a total of 149,119 paid employees during the workweek ended nearest November 15, 1958, an increase of 20.5 percent compared with the same week in 1954. In addition, 57,505 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$374,924,000, compared with \$272,444,000 in 1954, an increase of 37.6 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 22-25.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

**Enumeration of "Employers."**--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

**Enumeration of "Nonemployers."**--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).--Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).--Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).--Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).--Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).--Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).--Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).--Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).--Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).--Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).--Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

December 1959

BC58(P)-SA44

### Utah

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Utah during the year 1958 totaled \$121,894,000, an increase of \$37,586,000 or 44.6 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 43.2 percent compared with an increase of 48.6 percent in the remainder of the State. The largest cities in the State, Salt Lake City, Ogden, and Provo, showed increases of 47.5 percent, 36.2 percent, and 45.5 percent, respectively.

Selected service trade establishments in the State had a total of 11,033 paid employees during the workweek ended nearest November 15, 1958, an increase of 26.5 percent compared with the same week in 1954. In addition, 4,780 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$30,289, compared with \$20,554 in 1954, an increase of 47.4 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 8-11.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).--Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).--Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).--Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).--Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).--Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).--Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).--Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).--Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).--Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).--Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

## ORDER FORM

## PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

Area	Retail trade	Wholesale trade	Selected services	Area	Retail trade	Wholesale trade	Selected services

## SELECTED SERVICES

### Preliminary Area Report

1958 CENSUS  
JAN 29 4 31 PM '60

January 1960

BC58(P)-SA45  
(Revised)

## Vermont

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Vermont during the year 1958 totaled \$46,097,000, an increase of \$11,481,000 or 33.2 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The largest cities in the State, Burlington, Rutland, and Barre, showed increases of 29.6 percent, 45.2 percent, and 19.8 percent, respectively.

Selected service trade establishments in the State had a total of 4,843 paid employees during the workweek ended nearest November 15, 1958, an increase of 30.2 percent compared with the same week in 1954. In addition, 2,525 active proprietors and partners were engaged in the operation of the selected service trade establishments.

The annual payroll of these establishments amounted to \$10,995,000, compared with \$8,295,000 in 1954, an increase of 32.5 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 5-8.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

**Enumeration of "Employers."**--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

**Enumeration of "Nonemployers."**--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.)—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.)—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report 32 PM '60

January 1960

BC58(P)-SA46

### Virginia

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Virginia during the year 1958 totaled \$461,018,000, an increase of \$173,235,000 or 60.2 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 69.4 percent compared with an increase of 43.3 percent in the remainder of the State. The largest cities in the State, Richmond, Norfolk, and Roanoke, showed increases of 59.2 percent, 30.3 percent, and 26.3 percent, respectively.

Selected service trade establishments in the State had a total of 54,631 paid employees during the workweek ended nearest November 15, 1958, an increase of 29.5 percent compared with the same week in 1954. In addition, 14,866 active proprietors and partners were engaged in the operation of the selected service trade establishments.

The annual payroll of these establishments amounted to \$142,467,000, compared with \$90,057,000 in 1954, an increase of 58.2 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 11-14.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

Establishments.--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

Receipts.--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

Payroll, entire year.--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll-workweek ended nearest November 15.--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees-workweek ended nearest November 15.--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

"Full workweek" employees.--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Proprietors of unincorporated businesses.--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).--Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).--Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).--Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).--Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).--Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).--Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).--Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).--Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).--Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).--Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).--Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).--Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).--Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).--Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).--Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).--Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).--Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).--Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).--Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).--Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00. A complete set of all reports for the three trades is priced at \$18.00.

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES Preliminary Area Report

DEPARTMENT OF COMMERCE  
DEC 9 11 01 AM '59  
LIBRARY

December 1959

BC58(P)-SA47

### Washington

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Washington during the year 1958 totaled \$426,040,000, an increase of \$97,629,000 or 29.7 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 37.4 percent compared with an increase of 12.1 percent in the remainder of the State. The largest cities in the State, Seattle, Spokane, and Tacoma, showed increases of 34.1 percent, 16.9 percent, and 7.6 percent, respectively.

Selected service trade establishments in the State had a total of 38,698 paid employees during the workweek ended nearest November 15, 1958, an increase of 18.1 percent compared with the same week in 1954. In addition, 16,822 active proprietors and partners were engaged in the operation

of the selected service trade establishments. The annual payroll of these establishments amounted to \$117,146,000 compared with \$90,706,000 in 1954, an increase of 29.1 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A form for requesting announcements of final reports and for ordering copies of the preliminary area reports is provided at the end of this publication.

For explanation of procedures and definitions, see pages 8-11.

Note: The Portland, Oreg., Standard Metropolitan Statistical Area includes Clark County in Washington. Data for this SMSA are shown in the report for Oregon.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

Area	Retail trade	Wholesale trade	Selected services	Area	Retail trade	Wholesale trade	Selected service

## SELECTED SERVICES Preliminary Area Report

BUREAU OF THE CENSUS  
FEB 9 8 29 AM '60  
LIBRARY

February 1960

BC58(P)-SA48

### West Virginia

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in West Virginia during the year 1958 totaled \$172,842,000, an increase of \$40,475,000 or 30.6 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 27.2 percent compared with an increase of 33.0 percent in the remainder of the State. The largest cities in the State, Huntington, Charleston, and Wheeling, showed increases of 28.0 percent, 32.7 percent, and 4.8 percent, respectively.

Selected service trade establishments in the State had a total of 18,763 paid employees during the workweek ended nearest November 15, 1958, an increase of 4.2 percent

compared with the same week in 1954. In addition, 7,114 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$50,864,000, compared with \$40,602,000 in 1954, an increase of 25.3 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 9-12.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

Title	SIC Industry No.
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories—those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, roasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES

Preliminary Area Report, '60

December 1959

BC58(P)-SA49

### Wisconsin

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Wisconsin during the year 1958 totaled \$487,076,000, an increase of \$109,702,000 or 29.1 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 31.2 percent compared with an increase of 25.8 percent in the remainder of the State. The largest cities in the State, Milwaukee, Madison, and Racine, showed increases of 21.4 percent, 29.8 percent, and 7.6 percent, respectively.

Selected service trade establishments in the State had a total of \$48,540 paid employees during the workweek ended nearest November 15, 1958, an increase of 18.4 percent compared with the same week in 1954. In addition, 19,605 active proprietors and partners were engaged in the operation of the selected service trade establishments.

The annual payroll of these establishments amounted to \$133,319,000, compared with \$98,062,000 in 1954, an increase of 36.0 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 11-14.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned	
auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

**Enumeration of "Employers."**--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

**Enumeration of "Nonemployers."**--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g., sales of merchandise at wholesale or retail by establish-

ments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.)—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.)—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES Preliminary Area Report

BUREAU OF THE CENSUS  
DEC 4 8 55 AM '59  
LIBRARY

November 1959

BC58(P)-SA50

### Wyoming

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Wyoming during the year 1958 totaled \$55,767,000, an increase of \$8,924,000 or 19.1 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U. S. Department of Commerce. The largest cities in the State, Cheyenne, Casper, and Laramie, showed increases of 10.1 percent, 26.6 percent, and 5.9 percent, respectively.

Selected service trade establishments in the State had a total of 5,168 paid employees during the workweek ended nearest November 15, 1958, an increase of 18.3 percent compared with the same week in 1954. In addition, 2,714 active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$14,652,000,

compared with \$11,178,000 in 1954, an increase of 31.0 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated. A description of final publications and a form for requesting announcements of final reports and for ordering copies of the preliminary area reports are provided at the end of this publication.

For explanation of procedures and definitions, see pages 6-9.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories—those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each or the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "laundretts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# PUBLICATION PLAN FOR THE 1958 CENSUS OF BUSINESS

## PUBLICATION OF FINAL CENSUS RESULTS

The 1958 Census of Business consists of three major trade segments--selected services, retail trade, and wholesale trade. The final results of the 1958 Census will be released in the form of separate series of reports for each of these trade segments; a separate report will be prepared for public warehouses. These final reports will supersede the preliminary reports, of which this is one.

The 1958 Business Census report series for selected services, retail trade, and wholesale trade, will consist basically of four parts--(1) Area Reports, (2) Subject Reports, (3) Trade Reports, and (4) Central Business District Reports.

Subsequent to the issuance of the separate final reports, Area and Subject Reports will be consolidated and issued as Census volumes. Announcements concerning the final report series and the volumes may be obtained by filling out the order form included with this report.

The report series described above do not cover Puerto Rico, results for which will be issued separately.

## THE SELECTED SERVICE TRADES SERIES

Following are brief descriptions of the series for selected services:

### Area Reports

A separate report for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, Guam, and continental United States showing by kind-of-business data on number of establishments, receipts for the year, payroll for the year, payroll and number of paid employees for the workweek ended nearest November 15, 1958, and number of proprietors. Detailed kind-of-business data are provided for the State, for each standard metropolitan statistical area, for each large county, and for each large city. In addition, data for less detailed kind-of-business groupings are shown for all counties and cities and other municipalities of 2,500 or more inhabitants. The reports for the New England States will include data for all towns with a total population of 10,000 or more. Also included are those New England towns with a population of less than 10,000 which as of the 1950 Census of Population had an urban concentration of 2,500 or more inhabitants. The Pennsylvania and New Jersey reports will provide data for townships and towns having a population of 10,000 or more. The number of kinds of business for which figures are published will vary according to the number of establishments in the area.

### Subject Reports

These reports will provide data on such subjects as receipt-size of establishment, employment-size of establishment, legal form of organization, and single units and multiunits, as well as on a number of special subjects applicable to particular trades or groups of trades. They will include detailed statistics by kind of business for the United States as a whole and, in some cases, for geographic divisions, standard metropolitan statistical areas, and States, with cross classification by related subjects.

### Trade Reports

This series assembles data for a particular trade or group of related trades. The data for the most part are assembled from the area and subject reports. The trades covered in a specified trade report are not limited to those in a specific industry division such as Selected Service Trades but may include trades in any of the industry divisions covered by the 1958 Census of Business.

### Central Business District Reports

Although these reports are designed primarily to present information for retail trade, they will also include data for two service businesses--hotels and motion picture theaters. A report will be provided for each of a number of large metropolitan cities, with data presented by kind of business. Included will be general statistics (establishments, sales, and annual payroll) by kind of business for the central business district, the central city, the central city exclusive of the central business district, the standard metropolitan statistical area, and the standard metropolitan statistical area exclusive of the central business district. In addition, for a number of the larger metropolitan areas, statistics will be published for major business centers outside the central business district.

## CENSUS VOLUMES

After all area and subject reports have been completed, they will be assembled and issued as 1958 Census volumes. These volumes will contain more explanatory materials and will include some miscellaneous statistics not published in earlier reports. Separate volumes will be issued for area statistics and for subject statistics.

Since Alaska and Hawaii were not admitted as States until 1959, all United States summary data in the publications of the 1958 Census of Business do not include these States.

These series are now in preparation.  
Each report will be mailed as soon  
as it is printed.

**ORDER FORM****PRELIMINARY AREA REPORTS OF THE 1958 CENSUS OF BUSINESS**

Three separate preliminary series of reports - for retail trade, for wholesale trade, and for selected services - are being issued. Each of these three preliminary series includes a report for the United States and one for each State, the District of Columbia, Alaska, Hawaii, Virgin Islands, and Guam. Orders should be sent to the Bureau of the Census, Washington 25, D.C., or any U.S. Department of Commerce Field Office. Payment must be included with your order. Make check or money order payable to Census, Department of Commerce. Government Printing Office coupons will also be accepted. If you wish to charge your account with the Superintendent of Documents, please report your account number.

Single reports are priced at 15¢ each. One set of all area reports for one trade - retail, wholesale, or selected services - is priced at \$6.00

Please indicate number of copies of each publication you wish to purchase.

## SELECTED SERVICES Preliminary Area Report

February 1960

BC58(P)-SA51

### Alaska

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Alaska during the year 1958 totaled \$26,913,000, an increase of \$6,679,000 or 33.0 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The largest cities, Anchorage and Fairbanks, showed increases of 40.8 percent and 27.8 percent, respectively.

Selected service trade establishments in Alaska had a total of 2,298 paid employees during the workweek ended nearest November 15, 1958, an increase of 45.8 percent compared with the same week in 1954. In addition, 933 active proprietors and partners were engaged in the

operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$8,012,000, compared with \$5,541,000 in 1954, an increase of 44.6 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 5-8.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

### EXPLANATION OF TERMS

**Establishments.**--Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**--Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**--"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**--These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

#### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

Hotels (SIC 7011, 7012).—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

#### Personal Services (SIC Major Group 72)

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

Power laundries, self-service laundries (SIC 7211, 7215).—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

Other laundries and laundry services (SIC 7212-7214).—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

Beauty shops, including combination beauty, barber shops (SIC 723).—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

Barber shops (SIC 724).—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

Photographic studios, including commercial photography (SIC 722).—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

Shoe repair, shoeshine, hat cleaning shops (SIC 725).—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

Funeral services, crematories (SIC 726).—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

Pressing, alteration, garment repair; fur repair, storage (SIC 727).—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automotive passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.

# 1958 Census of Business

## SELECTED SERVICES Preliminary Area Report

February 1960

BC58(P)-SA52

### Hawaii

(This is one of a series of preliminary area reports on selected services published as part of the 1958 Census of Business. This series will be superseded by a series of area reports which will furnish final statistics and which will subsequently be included in an area statistics volume.)

Receipts of selected service trade establishments in Hawaii during the year 1958 totaled \$97,539,000, an increase of \$32,813,000 or 50.7 percent since the latest previous Census which covered operations in 1954. This was announced today by the Bureau of the Census, U.S. Department of Commerce. The parts of the State located in standard metropolitan statistical areas showed an increase of 52.3 percent compared with an increase of 40.8 percent in the remainder of the State. The city of Honolulu showed an increase of 53.3 percent.

Selected service trade establishments in Hawaii had a total of 12,197 paid employees during the workweek ended nearest November 15, 1958, an increase of 39.6 percent compared with the same week in 1954. In addition, 2,934

active proprietors and partners were engaged in the operation of the selected service trade establishments. The annual payroll of these establishments amounted to \$29,695,000, compared with \$19,808,000 in 1954, an increase of 49.9 percent.

This report provides preliminary findings for that portion of the 1958 Census of Business which relates to Selected Service Trades. It is not anticipated that there will be substantial differences between the preliminary and final figures. However, it is expected there will be a number of revisions to incorporate late returns and corrections to figures initially submitted or estimated.

For explanation of procedures and definitions, see pages 5-8.

## PROCEDURES AND DEFINITIONS

### KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in selected service trades in accordance with the principles of the 1957 edition of the Standard Industrial Classification (SIC) Manual, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, rooming houses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreational facilities for their own members and which are exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code are not included.

The following major groups, in the Services division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.
84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Information for establishments of these types will be included in the "Summary Statistics" volume of the 1958 Census of Business, to be published subsequently. (See Kind-of-Business Classifications below for definitions of the kind-of-business categories for which data are shown in this report.)

### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

(1) Because of annexations and other boundary changes, the physical area of a number of urban places in 1958 is not the same as it was in 1954. This factor should be taken into consideration in evaluating changes in Census findings from 1954, as in each Census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

(2) Revisions made in the 1957 edition of the SIC Manual have necessitated the following changes in establishment classifications used in the 1954 Census of Selected Service Trades:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC Industries all of which were included in 1954 are not included in 1958 since their new industry classifications place them in other divisions:

<u>Title</u>	<u>SIC Industry No.</u>
Dressmaking shops	5671 part
Contract mail carriers	4212 part
Maintenance of carrier owned auto passenger transportation	4172 part
Aircraft repair	4582 part
Machine shop repair	3591 part
Shopping news services	2711 part

(3) Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the Census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of one percent and probably has little effect on the number of establishments included in the Census.

### METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories—those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."—Information for establishments in this part of the selected service trades was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification, for those cases for which BOASI classification had not yet been established, a general purpose form was used. Although the BOASI classification was used to facilitate distribution of Census forms, the Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."—This group was defined to include service businesses other than those rep-

resented in the active FICA records of the Internal Revenue Service. Statistics for this group of establishments were derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the selected service trades, although made up of a large number of establishments, accounted for about ten percent of the total receipts of the selected service trades.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

#### EXPLANATION OF TERMS

**Establishments.**—Census of Business figures represent a summary of reports for individual "establishments" rather than "companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated on the basis of the physical location at which the business was conducted.

Where two, or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, when distinct and separate economic activities, for which different industry classification codes were appropriate, were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the Censuses.

The "number of establishments" shown in this report is the number in business at the end of the Census year.

**Receipts.**—Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the selected service trades. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the selected service trades. They do, however, include receipts other than from service activities (e.g. sales of merchandise at wholesale or retail) by estab-

lishments primarily engaged in the selected service trades.

**Payroll, entire year.**—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Included in payroll are the value of payments in kind, such as free meals, lodgings, etc., received by employees from their employers but not amounts received by employees as tips, etc. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

**Payroll-workweek ended nearest November 15.**—This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

**Paid employees-workweek ended nearest November 15.**—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

**"Full workweek" employees.**—"Full workweek" employees includes employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

**Proprietors of unincorporated businesses.**—These are owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

#### KIND-OF-BUSINESS CLASSIFICATIONS

Selected service trades, as defined in the 1957 edition of the Standard Industrial Classification (SIC) Manual, and as covered in the 1958 Census, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments covered by the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax returns. Because of the nature of the information available, the kind-of-business classifications based on the tax returns reflect primarily "self-designation." On the Census forms the classifications were based on questions relating to the specific kinds of business and there was reliance on "self-designation" only when necessary to supplement the information provided by the Census questions. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about ten percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The kind-of-business material which follows describes each of the major groups into which the service trades are divided, and also describes the kinds of business or combinations of kinds of business within the major groups

for which separate information is provided in the preliminary report series.

In the final report series, a more detailed classification than is available in these reports or in the SIC Manual will be provided.

**Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70 Except 702 and 704)**

This group consists of establishments engaged in providing lodgings or lodgings and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) "tourist homes." Apartment or residential hotels which provide accommodations for transients have been included in the Census. In addition to hotels and motels, sporting and recreational camps and trailer parks are also included in this group. Establishments operated by membership organizations and open only to their own members are not included.

**Hotels (SIC 7011, 7012).**—Establishments known as hotels, engaged in providing lodging, or lodging and meals to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment hotels which provide accommodations for transients. Excluded from the Census of Business are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

**Personal Services (SIC Major Group 72)**

This major group includes establishments primarily engaged in providing services generally involving the care of the person or his apparel, such as barber and beauty shops, cleaning and dyeing plants, laundries, and pressing and garment repair shops.

**Power laundries, self-service laundries (SIC 7211, 7215).**—Establishments primarily engaged in operating mechanical laundries with steam or other power, and establishments known as "laundromats" or "launderetts," etc., which generally use family type washers. This latter category may be "self-service" laundries primarily engaged in renting laundry equipment on their premises for the use of the public. Establishments which have power laundry equipment but which are primarily engaged in a specified specialty are included in "other laundries and laundry services" (SIC 7212-7214.) Power laundries included in this classification may perform cleaning and dyeing operations in conjunction with their laundry operations. Data for collecting and distributing units (branch outlets) owned and operated by power laundries are merged with those for the laundry which owns them and are not treated as separate establishments. Independently owned agencies for laundry plants are included in the classification "Pressing, alteration, garment repair; fur repair and storage." Establishments which install and operate coin-operated laundering machines in apartment houses are included under "Miscellaneous personal services." Establishments which rent machines, generally to apartment houses, are included under "Miscellaneous business services."

**Other laundries and laundry services (SIC 7212-7214).**—Includes (1) industrial launderers, primarily engaged in supplying laundered work clothes, wiping towels, and other related items to factories, garages, newspapers and other users; (2) linen supply, primarily engaged in supplying to industrial or household users such laundered linens as uniforms, aprons, table covers, and towels; (3) diaper service, primarily engaged in supplying diapers and other baby linens in homes; and (4) laundries, except power and self-service, primarily engaged in furnishing laundry finishing services. Establishments in groups

(1), (2), and (3) may or may not operate their own power laundry facilities.

**Cleaning, dyeing plants, including rug cleaning (SIC 7216, 7217).**—Plants primarily engaged in dry cleaning and dyeing apparel, household fabrics, and rugs. Data for collecting and distributing units (branch outlets) owned and operated by cleaning and dyeing plants are merged with the cleaning plant which owns them and are not treated as separate establishments. Establishments known as "tailor shops" or "cleaners" are included in this classification only if they operate their own cleaning plants.

**Beauty shops, including combination beauty, barber shops (SIC 723).**—Establishments primarily engaged in providing beauty services, or both beauty and barber services. Departments engaged in providing beauty services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, beauty departments are included in this classification when they are independently owned and operated as leased departments or concessions. Schools for the instruction of beauty shop operators are also included.

**Barber shops (SIC 724).**—Establishments primarily engaged in providing barber services. Departments engaged in providing barber services are not included when owned and operated as part of an establishment which is primarily engaged in some other activity. However, barber departments are included in this classification when they are independently owned and operated as leased departments or concessions. Barber colleges are also included.

**Photographic studios, including commercial photography (SIC 722).**—Establishments primarily engaged in photography either for the general public or for commercial users, or both. Included in this classification are portrait photographers, school, home, and transient photographers, aerial photographers, and photographic studios servicing advertising agencies, publishers, and other commercial users, except motion picture producers.

**Shoe repair, shoeshine, hat cleaning shops (SIC 725).**—Establishments primarily engaged in repairing footwear, shining shoes or cleaning and blocking hats. Shoe repair, shoeshine or hat cleaning departments conducted in other service establishments such as valet shops, laundries, and cleaning and dyeing plants, or in retail establishments (such as shoe stores and department stores) are included in this classification only when they are independently owned and operated as leased departments or concessions.

**Funeral services, crematories (SIC 726).**—Establishments primarily engaged in preparing the dead for burial and conducting funerals. Receipts include the sale of funeral merchandise such as caskets, burial clothing, etc. Also included are sales of flowers, receipts from ambulance service, and other receipts from business activities conducted at the establishments. Not included are repayments of cash advances made by the establishment to cover such items as cemetery expenses, flowers, livery service, and other items not included in the price of the complete funeral. Crematories operated in conjunction with cemeteries are not included.

**Pressing, alteration, garment repair; fur repair, storage (SIC 727).**—Includes (1) independently owned shops primarily engaged in pressing or arranging for the cleaning and pressing of clothing for individuals, (2) shops primarily engaged in repairing and altering clothing (except fur) for individuals, and (3) shops primarily engaged in fur repairing and fur storage for individuals. Valet shops and establishments generally known as "tailor shops" are included in this classification, but "custom tailors" are classified in Retail Trade. Establishments

known as "cleaners" which do no dry cleaning, but have their cleaning done for them by cleaning and dyeing plants, and independently operated collecting and distributing agencies servicing cleaning and dyeing plants or power laundries are included in this classification.

#### Miscellaneous Business Services (SIC Major Group 73)

This major group includes establishments primarily engaged in providing services, not elsewhere classified, to business enterprises. "Contract mail carriers" (now part of SIC 4212) and "shopping news service" (now part of SIC 2711) establishments which in the 1954 Census were included in this group are now excluded from the scope of the SIC Services division and from the Selected Services Census.

#### Automobile Repair, Automobile Services, Garages (SIC Major Group 75)

This major group includes establishments primarily engaged in furnishing automobile repair, storage, rental, and other services to the general public. Similar facilities, owned and operated by concerns for their own use and not available to the general public, are treated as auxiliary establishments of those concerns, and are not included here. Automobile repair departments maintained by establishments engaged in the sale of new automobiles are classified in Retail Trade. Establishments engaged in the maintenance of carrier owned automobile passenger transportation vehicles (now part of SIC 4172) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Auto repair shops (SIC 753).—Establishments primarily engaged in the general repair of automobiles and also in specialized automobile repairs such as top, body repair; battery ignition repair and service; radiator repair; paint shops; glass replacement, repair; brake repair; and wheel, axle, and spring repair. Also included are establishments primarily engaged in repairing, recapping, and retreading automobile tires, either for individuals or for the trade.

Automobile parking (SIC 752).—Establishments primarily engaged in the temporary parking of automobiles on open air lots or in parking structures, usually on an hourly or daily basis. Long term or dead storage of automobiles is not within the scope of the Selected Services Census.

Auto, truck rental, services, except repair (SIC 751, 754).—Include (1) establishments primarily engaged in daily or extended term rental of passenger automobiles, trucks, and truck tractors without drivers; (2) establishments primarily engaged in washing automobiles; and (3) establishments primarily engaged in furnishing automobile services not elsewhere classified (such as lubricating service, waxing service and towing service.)

#### Miscellaneous Repair Services (SIC Major Group 76)

This major group includes establishments primarily engaged in miscellaneous repair services, such as electrical appliance repair; radio and television repair; watch, clock, and jewelry repair; and reupholstery and furniture repair. Repair departments of retail dealers or manufacturers are not included in the repair classification unless operated as separate establishments and reported as such. It does not include some repair services of which the more important are automobile repair services, classified separately; garment and shoe repair, classified under "Personal services;" and ship, boat, and aircraft repair which are included in the Census of Manufactures.

"Machine shop repair" (now part of SIC 3591) and "Aircraft repair" (now part of SIC 4582) included in this group in 1954 are now excluded from the scope of the SIC Services division and from the Selected Services Census.

Radio, television repair (SIC 762 pt.).—Establishments primarily engaged in the repair of radio and television sets. Repair departments of radio and television dealers are not included here unless operated and reported as separate establishments.

Other electrical repair, including refrigerator (SIC 762 pt.).—Establishments primarily engaged in the repair of electrical equipment and electrical appliances (refrigerators, washing machines, vacuum cleaners, waxers, toasters, etc.) other than radio and television sets. Electrical contractors and electrical shops engaged primarily in housewiring, are not included in the Census of Business.

Watch, clock, jewelry repair (SIC 763).—Establishments primarily engaged in the repair of watches, clocks, and jewelry.

Reupholstery, furniture repair (SIC 764).—Establishments primarily engaged in furniture reupholstering and repair. Establishments primarily engaged in selling upholstery materials, making slip covers, draperies, etc., or in upholstering frames to individual orders are classified in Retail Trade. Establishments making furniture and cabinet work on a custom basis to individual order are also classified in Retail Trade.

#### Motion Pictures (SIC Major Group 78)

This major group includes establishments producing and distributing motion picture films, exhibiting motion pictures in commercially operated theaters, and furnishing services to the motion picture industry.

Motion picture production, distribution, services (SIC 781, 782).—Establishments primarily engaged in (1) the production of theatrical and nontheatrical motion pictures; (2) renting theatrical and nontheatrical film to exhibitors; and (3) services allied to motion picture production and distribution such as film processing, editing and titling, casting bureaus, wardrobe and property rental, rental and repair of cameras and other motion picture equipment, film delivery service, film buying and booking agencies, and film libraries.

Motion picture theaters (SIC 783).—Theaters primarily engaged in the exhibition of motion pictures in regular theaters and in outdoor theaters, commonly known as "open-air" or "drive-in."

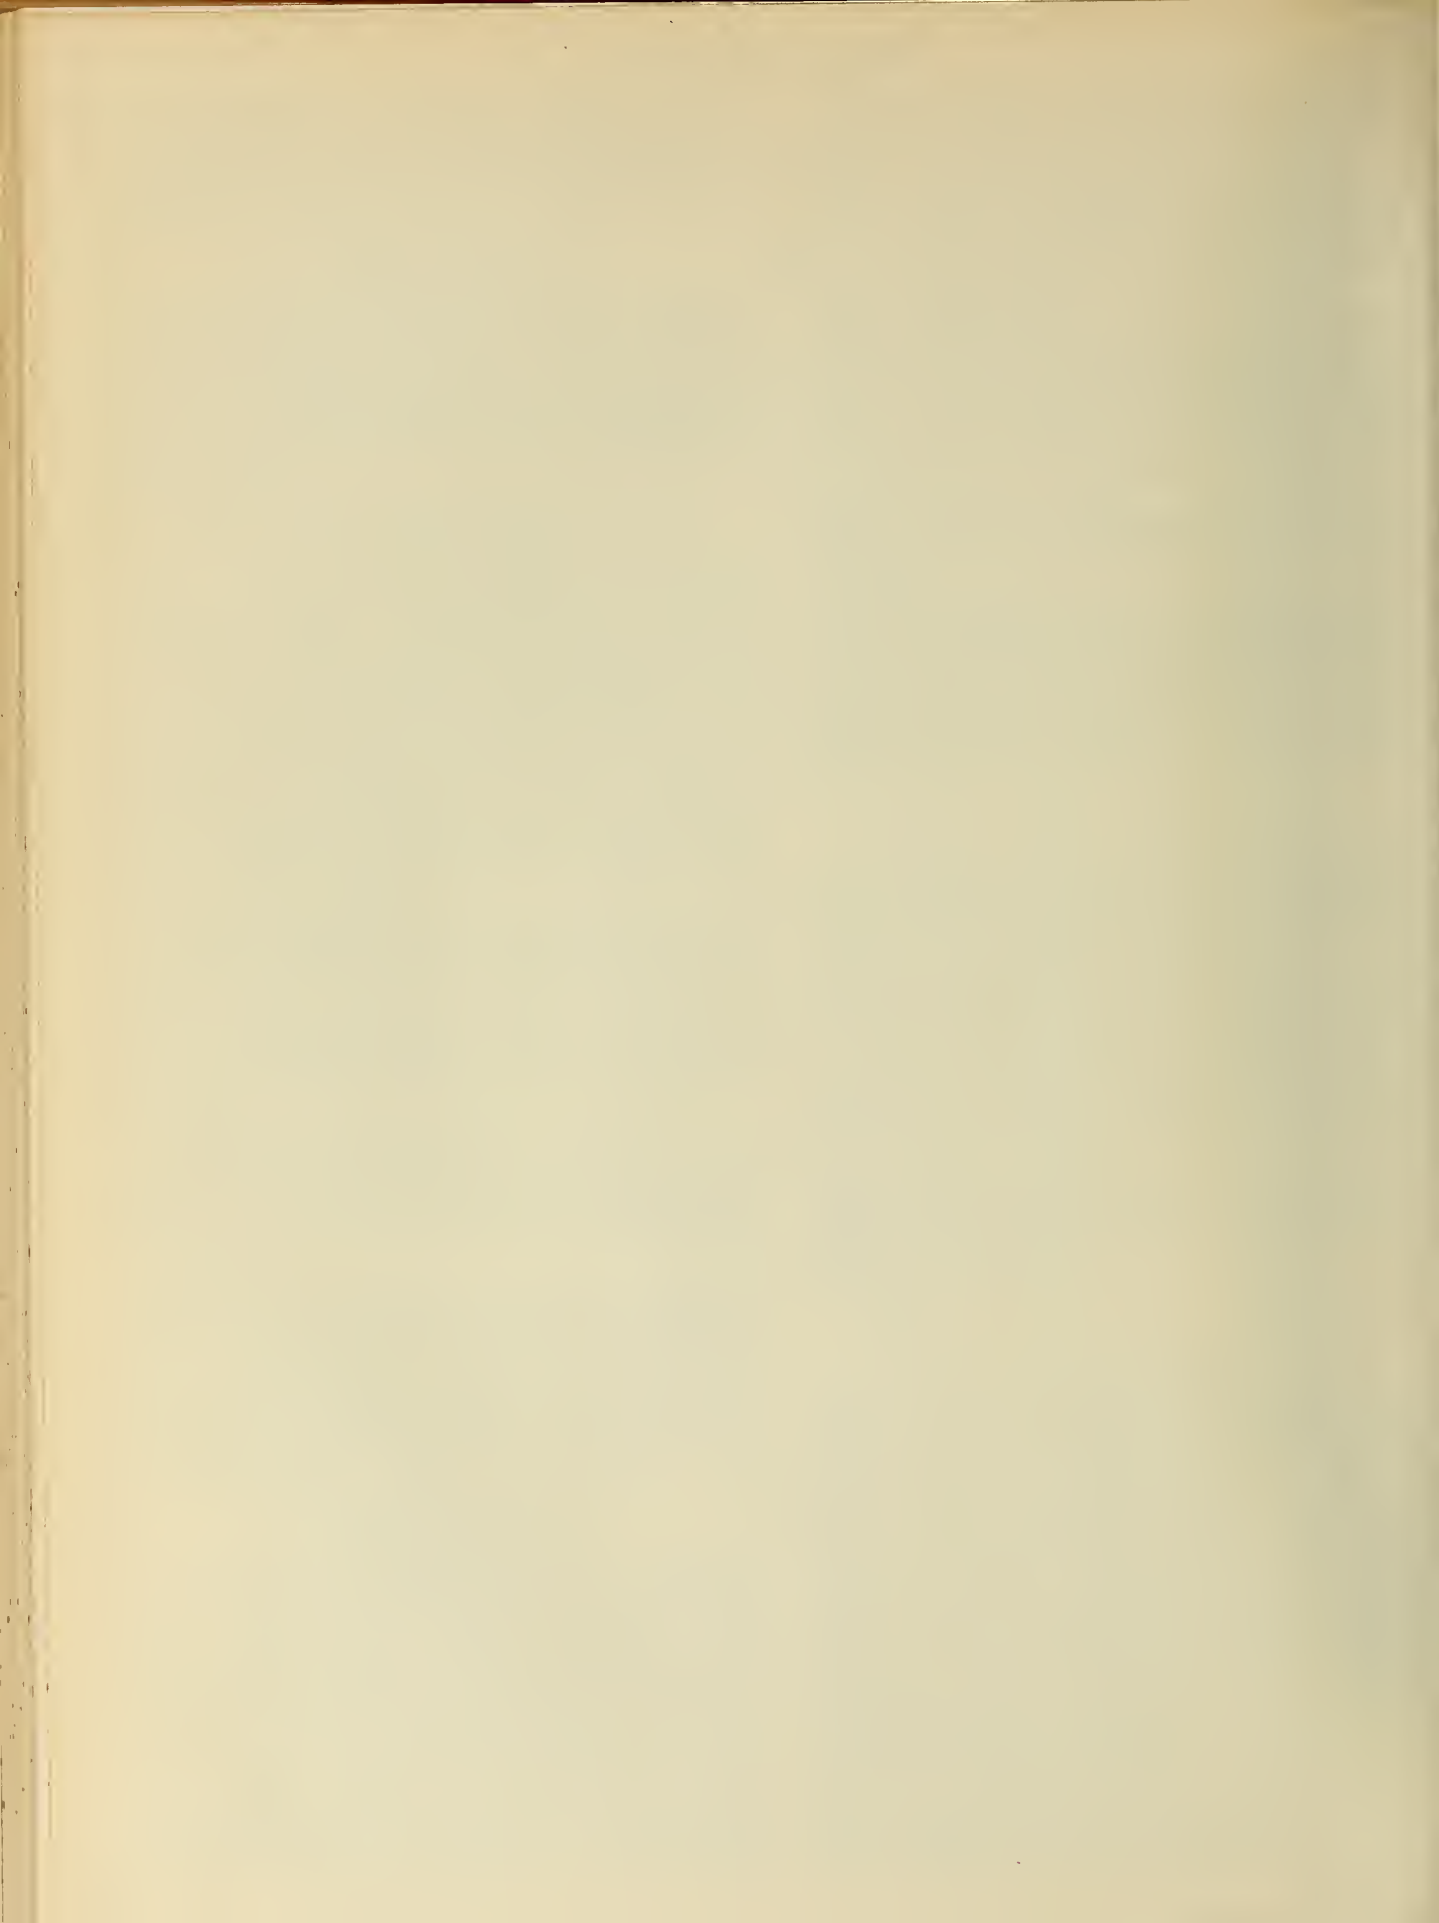

#### Amusement, Recreation Services, Except Motion Pictures (SIC Major Group 79)

This major group includes establishments primarily engaged in providing amusement, recreation, or entertainment. Children's and professionals' dance schools, not included in the scope of the 1954 Selected Service Census, are now included in this group. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included in this group. Those establishments exempt from payment of Federal Income Tax under the provisions of Sec. 501 of the Internal Revenue Code which are operated to provide recreational facilities for their own members are excluded. Gambling businesses operated in the State of Nevada, where such businesses are legal, are included. In all other States gambling businesses are excluded.

Bowling, billiards, pool (SIC 793).—Establishments engaged in the operation of bowling alleys or billiard and pool parlors. Establishments known as bowling alleys or billiard and pool parlors, but having merchandise sales (food, beverages, etc.) equal to seventy-five percent or more of total receipts were classified in Retail Trade.
